The University of Toronto.

HISTORICAL SKETCH.

The movement which ended in the establishment of the University of Toronto as the centre of the educational system of the Province of Ontario, originated with General Simcoe, the first Governor of Upper Canada, who was himself an old student of Merton, the most ancient of Oxford Colleges. He repeatedly expressed his conviction, both before his departure from England, and also during his term of office, that the best interests alike of the Government and of the inhabitants demanded the establishment of a University in Upper Canada. It was not, however, during his administration that the project took practical shape.

In the year 1797 the initial step was taken, when the home Government gave authority to the acting Lieutenant-Governor, the Hon. Peter Russell, to set apart for educational purposes five hundred thousand acres of Crown lands, one-half of which was to be applied to the establishment of a University. The actual foundation of the University was not rendered possible until nearly thirty years later, when permission was obtained to exchange a portion of these unproductive lands for other lands still vested in the Crown, which had begun to acquire value from settlement under lease. In consequence of this exchange, a revenue was created, and in 1827 a Royal Charter was granted by King George IV. for establishing at or near the town of York—as

Toronto was then called—a college, "with the style and privilege of a University," to be called King's College.

Further delay ensued, owing to the attitude towards educational matters of the next Lieutenant-Governor, Sir John Colborne. Through his influence the Royal Grammar School, then in existence at the capital, was transformed into Upper Canada College, in the belief that the educational necessities of the Province would be sufficiently provided for by such an institution. For twelve years, accordingly, a portion of university work proper was carried on, in conjunction with ordinary school training, by the Upper Canada College. After several changes in the administration of the Province, a Lieutenant-Governor of more advanced ideas in the matter of higher education, Sir Charles Bagot, concurred in the view that the long expected University should be organized, and on the 23rd of April, 1842, the foundation stone of King's College was laid by Sir Charles Bagot himself, in the Queen's Park, on the site now occupied by the Parliament Buildings.

Until the new buildings should be ready for occupation, the old Parliament Buildings, vacated by the removal of the seat of government to Quebec under the Union Act of 1840, were utilized for university purposes. Faculties of Arts, Medicine, and Divinity, were established. In 1843, the first matriculation of students took place, and inaugural addresses and lectures were delivered on June 8th and 9th of that year. A portion of the projected University buildings in the Queen's Park, was soon ready for occupation—the only portion ever completed on that site, and thither the professors and students were transferred. A separate school for the Medical Faculty was erected further to the west. This building, known in recent times as "Moss Hall," has, in its turn, been removed and the site appro-

priated for the building of the Biological Department and Museum.

In 1849 important modifications in the constitution of King's College were effected by an Act of the Legislature of Canada. In accordance with this Act the Faculty of Divinity was abolished, and the name of the University changed from King's College to that of the University of Toronto.

The University underwent a further transformation in 1853 through the abolition of its Faculties of Law and Medicine, and the division of its functions between the two newly organized corporations of the University of Toronto and University College. To the Senate of the University of Toronto were assigned the duties of framing the curriculum, holding examinations and admitting to degrees in Arts, Law, and Medicine, while to the President and Professors of University College, as a distinct and independent corporation with special powers, were assigned the teaching in Arts and the entire discipline and control of students.

The model of the thus re-organized University was stated to be the University of London. The characteristic features of that University, which had then only recently been established, were its limitation to the function of examination and its freedom from denominational restrictions. The University of Toronto, while retaining the latter characteristic unimpaired, has since been enabled to resume the function of teaching.

During the early years of the University it experienced repeated changes in its local habitation. As already noted, the faculty and students of King's College were at first temporarily accommodated in the Parliament Buildings until the erection of the east wing of King's College admitted of the occupation of their own building. From this they were

anew transferred to the old Parliament Buildings in 1853, when, by a special Act, the site of King's College was appropriated for the proposed new buildings for the use of the Parliament of Upper and Lower Canada. On the return of the Legislature to Toronto, in 1856, the faculty resumed the occupation of the old King's College Building, while one formerly in use by the Medical Faculty was being adapted for their occupation. There accordingly the work of the College was carried on, pending the erection of the new University buildings. These buildings were begun in 1856, and on October 4th, 1858, the top stone of the main tower was placed in position by Sir Edmund Head, the Governor-General, an old Oxford professor, the value of whose sympathy and support at this critical period in the history of the University cannot be over-estimated.

For more than thirty years the constitution of the University of Toronto and of University College remained unchanged. Other collegiate bodies, principally denominational schools of theology, entered into affiliation with the University, and, in deference to their especial requirements, the course of study in Oriental Languages was augmented, but the Faculty of University College continued to do the work of instruction for nearly all the students in Arts who presented themselves for examination. The candidates for examinations and degrees in Medicine were trained in medical schools in affiliation with the University, and in the Faculty of Law the examinations were based upon text-books prescribed by the Senate without teaching.

In 1887, both the University of Toronto and University College, were remodelled by the University Federation Act. The main object of renewed legislation was to secure a more uniform standard of higher education by the union of the various denominational universities of Ontario with the

Provincial University. Since the proclamation of the Act, Victoria University at Cobourg, representing the Methodist body, has entered into federation with the University of Toronto. The governing body of this institution is now represented on the Senate of the University of Toronto, its graduates elect representatives to the same body, and by the removal of the faculty and students of Victoria University to Toronto, where college buildings have been erected to the north of the Queen's Park, the union of the two Universities has been effected. Under the Federation Act, the theological colleges also, formally in affiliation with the University of Toronto, have become federating colleges, and enjoy increased representation on the Senate.

The Faculty of University College, by the Act of 1887, consists of professors and lecturers in Classical Languages and Literature (including lecturers in Ancient History), in Oriental Languages, in English, French and German, and in Moral Philosophy. All other portions of the Arts course are assigned to the Faculty of the University of Toronto, of which the lectures are made equally available to the students of University College, and those of all federating universities and colleges. For the maintenance of certain of the departments of science on a scale demanded by modern methods of research, special provision has been made by the erection of new and the enlargement of old buildings. In the new Biological building every facility is now provided for practical training in Biology and Physiology; whilst further extensions are contemplated, or are already in progress, for other departments of science.

A Faculty of Medicine in the University of Toronto was established immediately upon the passing of the Act in 1887, and teaching is imparted in all branches of medical science. All the advantages of the Faculty of Arts are available for the students in Medicine, and the laboratories

of the scientific departments are utilized equally by students in both departments.

Since the passing of the Federation Act, also, a teaching Faculty of Law has been created in the University, consisting of three professors and several honorary lecturers. Courses are given in connection with the Arts Faculty, which serve in part as a training for the degree of Bachelor of Laws.

The expansion of the University has not been limited to the time-honored Faculties of Arts, Medicine and Law. In 1888 a stimulus was given to the study of scientific methods of farming by the affiliation of the Ontario Agricultural College, and the adoption of a curriculum of study for the degree of Bachelor of the Science of Agriculture. Similarly an examination for the degree of Doctor of Dental Surgery has been instituted, as a consequence of the affiliation of the Royal College of Dental Surgeons of Ontario. The College of Pharmacy has subsequently been admitted to affiliation, and, with the extension of the same privileges to the Toronto College of Music, a curriculum of study has been prepared for the degree of Bachelor of Music.

The School of Practical Science was affiliated in 1889. Graduates of the School are specially eligible on certain conditions for the degrees of Bachelor of Applied Science and of Civil Engineer in the University.

On February 14th, 1890, the main University building was partly destroyed by fire. In the reconstruction thereby rendered necessary, opportunity has been afforded for important improvements in lighting, heating, and ventilation. Considerable extension has been effected in the numbers, capacity and equipment of the lecture-rooms and laboratories. A new library building has been completed on plans embracing the most recent improvements suggested by the experience of leading Universities in the United States and elsewhere.

PRESENT ORGANIZATION.

In treating of the constitution of the University of Toronto and University College under the Act of 1887, the latest of the legislative enactments which have modified the original Royal Charter, it will be convenient to indicate separately the functions of the various bodies entrusted with the management of the finances and the academical administration. These are the Crown, the Board of Trustees, the Senate, Convocation, the University Council, and the Council of University College.

1. THE CROWN.

The supreme authority in all matters continues to be the Crown. Section 4 of the University Federation Act (R. S. O. 1887, c. 230), defines this authority in general as follows:

"The Lieutenant-Governor shall be the Visitor of the University on behalf of the Crown, and his visitorial powers may be exercised by commission under the Great Seal; and the proceedings of any commission, having been first confirmed by the Lieutenant-Governor, shall be binding on the University and its members, and on all persons whomsoever." A similar section (69) applies to University College.

The following are, in detail, some of the principal matters in which the powers of the Crown are exercised:

All the property of the University is vested in the Crown in trust for the purposes of the University of Toronto and University College, and is managed and administered under the orders of the Lieutenant-Governor-in-Council by an officer appointed by commission, called the Bursar (R. S. O. 1887, c. 231, s. 7). The annual appropriations for the current expenses of the University and College are also

made on authorization of the Lieutenant-Governor-in-Council (R. S. O. c. 231, s. 19), and all expenditures of endowment for permanent improvements, such as buildings, etc., are similarly authorized, subject, however, in this latter instance to ratification by the Legislative Assembly (R. S. O. c. 231, s. 25).

The Crown exercises also a veto power as regards the statutes of the Senate and the enactments and regulations of the Council of University College, which are required to be submitted, within ten days to the Visitor for approval, and are valid only when so approved (R. S. O. 1887, c. 230, ss. 41, 75.)

The powers of the Crown in respect to appointments are thus stated in the Act (sec. 5): "The president, professors, lecturers, teachers, officers and servants of the University shall be appointed by the Lieutenant-Governor, after such examination, inquiry and report as he considers necessary, and shall hold office during his pleasure." A similar section (78) makes like provision in the case of University College.

II.—THE BOARD OF TRUSTEES.

The Board of Trustees, as constituted in its present form by an Order-in-Council of 1884, consists of ten members, viz., the Chancellor, the Vice-Chancellor, and the President of University College, *ex-officio;* five members elected by, but not necessarily members of, the Senate of the University of Toronto; and two members elected by, but not members of, the Council of University College. This board has general advisory powers with regard to the management and disposition of the endowments and income of the University and College, subject to the control of the Crown. In the discharge of its functions the Board makes recommendations

regarding the investment of the funds, the leasing of University properties, the letting of contracts, and exercises a general superintendence over the University property as to insurance of buildings, etc.

III. THE SENATE.

The Senate consists of three classes of members : (1) *Ex-officio* members ; (2) Appointed members ; and (3) Elected members. The *ex-officio* members are the Minister of Education ; the President of University College, and the president or head of each federating university or college ; the present Chancellor and Vice-Chancellor, and all past Chancellors and Vice-Chancellors. The appointed members consist of three representatives from the Council of the University of Toronto ; one from the Council of University College ; one from the Law Society of Upper Canada ; one from each federated or affiliated institution (subject, however, in the latter case to certain restrictions), and nine members appointed by the Lieutenant-Governor-in-Council. The elected members at present number twenty-five, and represent the graduates in Arts (twelve members), Medicine (four members), and Law (two members), of the University of Toronto, the graduates of the federating University of Victoria (five members), and the High School teachers of the Province (two members) ; the graduates in Medicine and Law of Victoria University voting along with the graduates of the University of Toronto in the same faculties.

The body thus composed, is renewed once in three years, when all except the *ex-officio* members must retire, being eligible, however, for re-appointment or re-election. The chairman or president of the Senate is the Chancellor, who is the elected representative of the whole body of graduates, or in his absence the Vice-Chancellor elected by the Senate

from among its members at its inaugural meeting after the triennial dissolution.

The functions of the Senate may best be understood from the general statement of them in the Act. (R. S. O. c. 230, s. 39).

The Senate may from time to time make and alter any statutes not being repugnant to the laws of Ontario, or to the general objects and provisions of this Act:

1. Touching the examination for degrees, or for scholarships, prizes, or certificates of honour; and

2. The granting of such degrees, scholarships, or certificates; and

3. The fees to be paid by candidates for examination or upon taking any degree; and

4. The application of such fees:

5. Touching the periods of the regular meetings of the Senate and the mode of convening special meetings thereof; and

6. In general for promoting the purposes of the said University, and touching all other matters whatsoever regarding the same or the business thereof, or for any purpose for which provision may be required for carrying out this Act according to its intent and spirit in any case not herein provided for.

The Senate is also required to report annually to the Lieutenant-Governor on the general condition and progress of the University; and it has also powers to inquire and report concerning the conduct, teaching, and efficiency of members of the Faculties of the University of Toronto and of University College. (R. S. O. c. 230, s. 45).

IV. CONVOCATION.

Convocation consists of the whole body of graduates of the University, in all faculties. Except indirectly through

its elected representatives, no part of the management of the University can be exercised by it as a whole. It elects the Chancellor, and, in divisions according to faculty, it elects members of Senate as its representatives in Arts, Medicine and Law. Any question relating to University affairs may be discussed by it and a vote taken, and the result of such discussion is communicated to the Senate, which must consider the representation made and return to Convocation its conclusion thereon. (R. S. O. c. 230, s. 59.)

V. THE UNIVERSITY COUNCIL.

This body is composed of a President, who shall also be President of University College, and the professors in the University in the Faculties of Arts, Medicine, and Law. Its functions are defined as follows (R. S. O. c. 230, ss. 56-58):

"Such council shall have full authority and entire responsibility of discipline over all students in relation to the lectures and other instruction by the professors, lecturers and other teachers of the University; and no lecturing or teaching of any kind shall be carried on in the University or in the School of Science, by any others except the duly appointed professors and teachers, without the authority of the University Council.

"The University Council shall have entire authority and responsibility for all work carried on by the societies and associations of students of the University, provided always that all such authority and responsibility shall be limited to the conduct of the students in relation to such societies and associations as are organized in connection with the University.

"The University Council shall have authority over all officers and servants of the University, whose services are

required in connection with the work of instruction; and all curators, assistants or servants, engaged in the lecture-rooms, laboratories or otherwise, in any department of instruction, shall be under the sole authority of the University Council.

"The laboratory fees to be paid by students or other persons for attending the University, or receiving instruction therein, shall be determined by the Lieutenant-Governor-in-Council on the report of the University Council."

VI. THE COUNCIL OF UNIVERSITY COLLEGE.

This body is composed of a President, the professors in University College, and the Dean of Residence in University College for the time being. Like the University Council, the Council of University College has control of the students of University College and authority over the servants; but its functions are more extensive than those of the corresponding governing body of the University of Toronto, notably as to its constitution as a corporation with a common seal, with power to hold property. These functions are defined in the Act as follows:

"The collegiate institution heretofore constituted at the city of Toronto by the name of 'University College' is hereby continued, and the body corporate called 'The Council of University College, and the President, Professors, officers, servants, and all other existing appointments, and all statutes, by-laws, rules and regulations of such Council, are hereby continued, subject to the provisions of this Act.

"The said College shall be under the direction, management and administration of the said body corporate called the Council of University College, and such body corporate shall have perpetual succession and a common seal, with power to hold real and personal property, subject to the

provisions hereinafter made, and shall be capable of suing and being sued, pleading and being impleaded by the name aforesaid, and shall have the usual powers of corporate bodies, according to *The Interpretation Act*, subject to the said provisions.

"The said Council may make regulations for the management of the property and business thereof, and for any purpose necessary for carrying this Act into effect according to its intent and spirit in cases for which no provision is made, so that such regulations be not inconsistent with this Act or the laws of this Province; and the Council may from time to time amend or repeal the same.

"The fees to be paid by students or persons attending lectures or receiving instruction in University College shall be determined by the Lieutenant-Governor in Council on the report of the Council of University College.

"All students, except in cases specially provided for by Statute of the Senate, shall be enrolled in University College, or in an affiliated college, or in a federating university."

DAILY PRAYERS.

[Morning Prayer daily at 10 a.m., at which all who have no conscientious objections are expected to be present.]

ALMIGHTY GOD, our Heavenly Father, regard us, we humbly pray Thee, with Thy favor, as we now unite in asking Thy guidance and over-ruling care in all the work of this day. We implore Thy Divine blessing on our country, its schools, colleges, and universities. We especially beseech Thee on behalf of this University and all connected with it. Grant to its professors, teachers, and students a sense of their responsibility to Thee in the use of the talents committed to their charge. Make of it a fountain of learning, virtue, and piety, continually enriched with Thy heavenly benediction. May all who go forth from it be enabled by Thy grace to use wisely and rightly the knowledge here acquired, and ever to employ their talents in the cause of righteousness, justice, and truth. Preserve us under every temptation; and let a sense of Thy undeserved mercies inspire us with zeal in Thy service. We ask it for the sake of Thy Son our Saviour, Jesus Christ. Amen.

OUR FATHER, which art in Heaven, Hallowed be Thy Name. Thy kingdom come. Thy will be done in earth, as it is in Heaven. Give us this day our daily bread. Forgive us our trespasses, as we forgive them that trespass against us; and lead us not into temptation, but deliver us from evil. For Thine is the kingdom, the power, and the glory, for ever and ever. Amen.

THE GRACE of our Lord Jesus Christ, and the love of God, and the fellowship of the Holy Ghost, be with us all evermore. Amen.

O LORD GOD, the Fountain of Light and Truth: our Creator, Preserver, and continual Benefactor; to whom we have to render an account for every talent committed to our charge; bless, we beseech Thee, our labours and studies in this University. Let Thy Divine guidance and special favour rest on its professors, teachers and students. Animate all with a spirit of reverence, a love of truth, and a humble dependence on Thee. Teach us so to estimate rightly Thy manifold mercies, that whilst engaged in the discharge of the duties of time, we may ever be mindful of the more important interests of eternity, and that through Thy grace we may so order our thoughts, words, and actions, as to aim not merely at the welfare of ourselves and others, but also at rendering unto Thee a willing and grateful service. Grant this, we humbly pray Thee, for Jesus Christ's sake. Amen.

OUR FATHER, which art in Heaven, Hallowed be Thy Name. Thy kingdom come. Thy will be done in earth, as it is in Heaven. Give us this day our daily bread. Forgive us our trespasses, as we forgive them that trespass against us; and lead us not into temptation, but deliver us from evil. For Thine is the kingdom, the power, and the glory, for ever and ever. Amen.

THE GRACE of our Lord Jesus Christ, and the love of God, and the fellowship of the Holy Ghost, be with us all evermore. Amen.

ALMIGHTY GOD, Father of all mercies, to whose providential goodness we owe the manifold blessings of this life, look down, we pray Thee, with Thy special favor on the professors, teachers, and students of this University. Guide us throughout this day, and in all the coming years. Bless us in the work in which we are now engaged, and aid us by Thy grace, that whilst diligently prosecuting the studies that here claim our attention, we may realize in Thee the fountain of all knowledge, goodness, and truth. Preserve us from error, delusion, and every presumptuous snare; take away all doubt and unbelief; and reveal Thyself to us as the Father of lights, in whom are all the treasures of wisdom and knowledge for time and for eternity. We ask it in the name, and for the sake of Thy Son our Saviour, Jesus Christ. Amen.

OUR FATHER, which art in Heaven, Hallowed be Thy Name. Thy kingdom come. Thy will be done in earth as it is in Heaven. Give us this day our daily bread. Forgive us our trespasses, as we forgive them that trespass against us; and lead us not into temptation, but deliver us from evil. For Thine is the kingdom, the power, and the glory, for ever and ever. Amen.

THE GRACE of our Lord Jesus Christ, and the love of God, and the fellowship of the Holy Ghost, be with us all evermore. Amen.

The University of Toronto.

Faculty of Arts.

ENTRANCE.

Candidates may enter this Faculty by passing the Junior Matriculation examination or the Senior Matriculation examination (First year), or at the examination of the Second year (see pp. 43-44). This last privilege will be possible only until and including the May examination of 1894.

Candidates for Junior Matriculation must have completed the fifteenth year of their age.

All candidates entering at the Junior Matriculation examination must take the pass subjects in Latin, Mathematics, English, History and Geography, and in one of the following groups: (*a*) Greek; (*b*) French and German; (*c*) French, and either Physics or Chemistry; (*d*) German, and either Physics or Chemistry.

Candidates intending to take, during their University course, any one of the following honor departments, viz.: Political Science, Mathematics and Physics, Chemistry and Mineralogy, Natural Sciences, are advised to take French and German at Matriculation, since these languages must be taken in connection with the above-named honor departments. For a similar reason candidates intending to take, during their University course, either the honor department of Philosophy or that of Oriental Languages are advised to take Greek, French and German at Junior Matriculation.

All candidates entering at the Senior Matriculation examination must take the pass subjects in Latin, English, History, Mathematics,

either Greek or French and German,* and either Biology or Physics, specified below under the title of First year. Candidates who purpose taking the honor course in Philosophy are advised to take French and German as well as Greek, in view of the course for Second year prescribed on page 49; and candidates who intend taking the honor course in Political Science are advised to take French and German, either instead of or along with Greek, in view of the course for Second year prescribed on page 48. Candidates for Senior Matriculation may present themselves either in May—and compete with the undergraduates for honors and scholarships—or at a special examination in September, at which no honors or scholarships are awarded.

An undergraduate in the Faculty of Arts, in any University in Her Majesty's dominions, may enter by being admitted "*ad eundem statum*," on special application to the Senate.

If such application be for admission to the standing of the Third or Fourth year in this University the Senate will, if it sees fit to grant the same, prescribe the subjects of examination in which such applicant shall be required to pass before proceeding to the Degree, having regard to the subjects in which he has already passed satisfactory examinations in his own University.

If such applicant be admitted to a lower standing in this University than he held in his own University, he may not compete for scholarships at the next ensuing examination; but if he obtain honors he shall, at the next succeeding examination, enjoy the same rights and privileges with respect to obligatory subjects, as an original undergraduate of this University who has passed an examination of the same merit.

The ordinary annual examinations for Matriculation (both pass and honor) will commence in the beginning of July, and applications therefor must be sent to the Education Department before June 1st.

Supplemental examinations for Matriculation will be held in the University about the middle of September, at which those who are rejected at the July examination, as well as new candidates, may present themselves; but no honors or scholarships will be awarded at such examinations.

The fee for Matriculation is five dollars, and must be paid when the application for the examination is made.

* Hebrew may be substituted for French or German.

The special examination for Senior Matriculation, previously referred to, will be held at the same time as these supplemental examinations.

Candidates for entrance must produce satisfactory certificates of age and of good conduct.

The fee for admission "*ad eundem statum*" is six dollars, and must be paid to the Registrar at the time of application.

Until the Senate by resolution otherwise determines, the standing of candidates who have passed, or who may hereafter pass, the examination of the Department of Education for First or Second Class Teachers' Certificates, is accepted *pro tanto* at any Junior Matriculation examination.

First Class Teachers' Certificates, or Senior Leaving Certificates, or certificates of having passed portions of the examination for such certificates, may be accepted *pro tanto* at the Senior Matriculation and First year examinations. Teachers holding Grades A and B are allowed the options granted to honor men in the subjects in which these certificates have been granted ; thus those having these grades in Mathematics will be recognized as in the honor department of Mathematics ; those having Grade A in Natural Science will be recognized as in the honor department of Natural Sciences of the Second year, on passing the necessary additional subjects in the First and Second examinations ; and those having these grades in English will be recognized as in the honor department of Modern Languages on passing in pass and honor French and German in addition to other necessary subjects.

The Examinations in Mathematics and Chemistry are not required of those who hold certificates of having passed the First examination in the School of Practical Science.

Candidates who desire to compete at the First year examinations for scholarships or relative standing cannot exercise the privilege referred to in the preceding two paragraphs.

Candidates entering at the examination of the Second year, and Undergraduates of First year standing who desire to take the Second year's examination, which will be possible only until July 1st, 1894, must, in addition to the subjects required for it, pass examinations on the subjects of the First year, according to the following scheme :—

For all who intend to pursue the pass course :—*Mathematics, History, English, and Biology or Physics.*

For those who intend to enter any of the honor departments, as follows :—

I. CLASSICS—*Mathematics ; English ; History.*

II. MODERN LANGUAGES—*Mathematics ; Biology* or *Physics.*

III. ORIENTAL LANGUAGES—*Mathematics ; Latin* or *Greek* (according as *Greek* or *Latin* is taken in Second year) ; *French* or *German ; English.*

IV. POLITICAL SCIENCE — *Mathematics ; History ; Biology* or *Physics* ; *English.*

V. PHILOSOPHY—*Mathematics ; English ; History ; Biology* or *Physics ; Latin* (if not taken in Second year).

VI. MATHEMATICS AND PHYSICS—*English ; Latin* or *Greek.*

VII. CHEMISTRY AND MINERALOGY—*Mathematics ; English ; Latin* or *Greek.*

VIII. NATURAL SCIENCES—*Mathematics ; English ; Latin* or *Greek.*

I.—REGULATIONS RELATING TO ALL UNDERGRADUATES.

Undergaduates proceeding to a Degree are required to be registered either in University College or in a federating University—except in those cases in which the Senate, in consideration of peculiar circumstances, shall dispense with attendance. All applications for such dispensation must be lodged with the Registrar before January 15th.

Every undergraduate who has not received such dispensation from the Senate for any particular year, must, before being admitted to examination, produce to the Registrar from the Head of the federated College which he has attended during the year, a certificate of attendance and of compliance with the requirements of that College.

Notice of the time of commencement of the undergraduate examinations will be given annually in January.

Candidates in all the years are required to send to the Registrar of the University, at least six weeks before the commencement of each examination, an application for examination according to a printed form to be obtained from the Registrar, and such application must be accompanied by the fee of five dollars.

II.—REGULATIONS RELATING TO THE PASS COURSE.

The subjects to be taken by those pursuing the pass course, with the options permitted, are set forth in the following schedule :

FIRST YEAR	Latin ; English ; History ; Mathematics ; either Greek, or French and German* ; Biology or Physics.
SECOND YEAR ...	Latin ; English ; History ; Philosophy ; Chemistry or Geology† ; either Greek, or French and German*.
THIRD YEAR....	Latin ; English ; either Greek, or French and German* ; any two of the three departments—History and Political Science, Philosophy, Physics.
FOURTH YEAR ..	Latin ; English ; either Greek, or French and German* ; any two of the three departments—Political Science, Philosophy, Astronomy.

Undergraduates in the pass course in the Third and Fourth years may, in lieu of one or more of the subjects prescribed for each of these years, take certain of the following subjects, namely, Biblical Greek, Biblical Literature, Apologetics, and Church History, according to the following scheme :

* NOTE.—Hebrew may be substituted for French or German in each of the four years.

† NOTE.—Pass candidates who have taken Biology in the First Year must take Geology in the Second year, and those who have taken Physics in the First year must take Chemistry in the Second year.

THIRD YEAR.

BIBLICAL GREEK.....	May be substituted for the prescribed classical Greek.
BIBLICAL LITERATURE OR CHURCH HISTORY. ..	May be substituted for the Modern History of the Political Science subject.
APOLOGETICS	An undergraduate who takes Philosophy may substitute Apologetics for Ethics.

FOURTH YEAR.

BIBLICAL GREEK	May be substituted for the prescribed classical Greek.
BIBLICAL LITERATURE OR CHURCH HISTORY OR APOLOGETICS	May be substituted for Political Science or Philosophy.

Undergraduates who exercise these options must present certificates of having attended lectures, and passed examinations in the subjects so selected at an affiliated or federating College or University other than University College. The minimum for passing at such examinations must not be less than the minimum required at the University examinations of the same year.

Undergraduates of any year, who have been rejected, or who have by sickness, domestic affliction, or other causes beyond their control been prevented from attending the Annual examinations in May may present themselves for examination in September, at the time of the Senior Matriculation examination; but candidates who have failed to attend at the May examinations, must prove to the satisfaction of the Vice-Chancellor, before presenting themselves in September, the existence and sufficiency of the alleged cause of absence, and all such cases shall be subsequently reported to the Senate.

The name of a Pass candidate in Arts may be allowed to appear in the Class Lists of his year, provided there are not more than two subjects in which he has failed. These subjects may be among the obligatory subjects of the year, or they may be subjects attempted at a previous examination or examinations.

An Honor candidate in Arts may be starred in one, but not more than one, of his Pass subjects on like conditions.

Candidates who have failed in one or two subjects must present themselves in those subjects at the September Supplemental examination.

Candidates who were rejected must pay a fee of ten dollars before offering themselves for the Supplemental examination.

A student who has been pursuing the pass course, but who has also succeeded in taking honors in some department in any year of his course, may apply to the Senate to be permitted to take such honor course, as if he had originally entered thereon; and such application may be granted, the Senate having due regard to the subjects on which he has already been examined.

Candidates in pass subjects in the Faculty of Arts shall be arranged in the annual class lists in three grades, A, B, and C; the minimum for Grade A shall be 75 per cent. of the marks, and for Grade B, 50 per cent.; all who pass with less than 50 per cent. shall be placed in Grade C.

III.—REGULATIONS RELATING TO THE HONOR COURSE.

In this course there are eight honor departments, viz.: I. Classics; II. Modern Languages; III. Oriental Languages; IV. Political Science; V. Philosophy; VI. Mathematics and Physics; VII. Chemistry and Mineralogy; VIII. Natural Sciences.

Candidates pursuing department II are allowed to take either Teutonic or Romance languages in their Fourth year.

Candidates pursuing department VI are allowed to take either Mathematics or Physics in their Fourth year.

Candidates pursuing department VIII are allowed to take either Division I or Division II in their Fourth year.

An undergraduate is entitled to admission to the degree of Bachelor of Arts, if in each year of his course he passes the examination in the pass and honor subjects of one of these departments (except in the department of Political Science of which the honor subjects only are required), and also the Pass examinations in the subjects, and at the respective times mentioned in the following schedule:—

	Pass French and German of the First and Second Years.....	1st and 2nd Years.
	Pass Psychology of the Second Year...	2nd Year.

* In view of the course for Second Year, it is recommended that candidates in this department take Greek and German the First Year; Hebrew, however, may be substituted for French.

† Students at St. Michael's College are allowed to substitute Latin of the Second and Third Years for German.

Undergraduates in the honor departments of Philosophy and Oriental Languages may, in the Third year, substitute Biblical Literature or Church History for History. Undergraduates in the honor department of Philosophy may also substitute Biblical Greek for the pass Classical Greek (Plato) to be taken in the Third year, and Biblical Literature or Apologetics for the pass Economics of the Fourth year. Undergraduates in the honor department of Oriental Languages may also substitute Biblical Greek for the pass Classical Greek of the Third and Fourth years. Undergraduates in the honor department of Political Science may substitute Church History for the pass English of the Second year, and Biblical Greek for the pass French or German of Third year. Those exercising these options must present certificates of having attended lectures and passed examinations in the subjects so selected at an affiliated or confederated College or University other than University College. The minimum for passing at such examinations must not be less than the minimum required at the University examinations of Third year. These examinations do not count for honors.

In the honor department of Philosophy two distinct examinations are held upon the two systems of Philosophy taught in the confederating Arts Colleges.

A candidate for honors in any of these departments is required each year to take the pass papers set in the subjects of his department for that year, except in the department of Political Science, in which only the honor papers are required.

Candidates in the honor subjects of Physics, Chemistry, Biology, and Mineralogy and Geology, will be ranked in the class lists on practical work done in the laboratories of the respective departments during the session ; and no candidate will be allowed to proceed to examination in any of these honor subjects unless he presents to the Registrar a certificate from the Professor that he has attained honor standing in the practical work of that subject.

A candidate pursuing the honor course in any one of these departments may, after passing in honors the examination of any year, apply for leave to take the pass course during the remainder of his undergraduateship.

A candidate pursuing the honor course, who fails to take honors in his department, shall not be considered to have passed the examination of the year, excepting that in the departments of Modern

Languages, Political Science, Philosophy, Chemistry and Mineralogy, and Natural Sciences, a candidate who in any one branch has failed to obtain the full percentage requisite for ranking in honors may, on the special recommendation of the examiners, be allowed to proceed as an honor candidate in the department in the following year. A candidate who has failed may at his option again present himself as an honor candidate, at any subsequent annual examination; or, upon application to the Senate, may be permitted to take the ordinary Supplemental Pass examination in September, with such of the previous pass subjects as may appear requisite in view of the extent and character of the examinations he has already passed.

A candidate who competes for honors at the examination for B.A., and fails to obtain the requisite number of marks to entitle him to be classed in honors, may, on the recommendation of the examiners, be awarded a degree without honors; it being at the option of the candidate to accept the award of such a degree, or to wait until a subsequent examination and again compete for a degree in honors.

An undergraduate who has obtained honors in any one of these departments may transfer himself to any other department, and proceed therein, but as a prerequisite to obtaining the Degree of B.A., he must during his course have passed the examinations in pass subjects annexed to the honor department to which he is transferred.

DEGREE OF M.A.

Candidates for the Degree of M.A. must have been admitted to the Degree of B.A., must be of the standing of one year from admission to the Degree of B.A., and must have sent in an approved thesis upon some subject in one of the departments in the Faculty of Arts.

ADMISSION "AD EUNDEM GRADUM."

A graduate in the Faculty of Arts in any University in Great Britain or Ireland (if his degree be not an honorary one) may be admitted to the same degree in the University of Toronto.

FEES.

The following fees are payable :—

For each examination after Matriculation....	Five	Dollars.
For change of Faculty.....	"	"
For admission *ad eundem statum*.....	Six	"
For the Degree of B.A.....	Ten	"
For the Degree of M.A.....	Twenty	"
For admission *ad eundem gradum* B.A.....	"	"
For admission *ad eundem gradum* M.A.....	"	"
For admission to a higher year on the certificate of the Head of an affiliated College..	Five	"
For dispensation from attendance at lectures in an affiliated College.....	Two	"
For certificates of Honor, each.....	One	"
Annual Library fee.....	Two	"

Matriculated undergraduates who are registered students of University College, or of any federating University or College, may attend lectures of University professors and lecturers in the Faculty of Arts without payment of fees, except those imposed for laboratory work : but such students must enter their names with the Registrar of the University.

LABORATORY FEES.

"A course in laboratory work" means the continuous course of instruction in laboratory or practical work offered to the student in any one year in any of the undermentioned subjects, namely, Physics, Chemistry, Mineralogy and Geology, Psychology, Biology (including Physiology, Zoology, Botany, and Histology), and any other separate subject in which laboratory work is or may be prescribed.

"A partial course of laboratory work" means a special course, or any sub-division, complete in itself, of a course of laboratory work as above defined.

"A matriculated student in Arts" means a student who is matriculated in the University of Toronto, and enrolled in University College or a federating University, and whose name is entered with the Registrar of the University of Toronto.

"An occasional student" includes every student in whose case the Senate of the University of Toronto is by law authorized to determine fees for courses of lectures in the University of Toronto.

Laboratory fees shall be divided into (*a*) Fees for practical instruction in the laboratory ; (*b*) Charges for supplies.

LABORATORY PRACTICAL INSTRUCTION FEES.

The annual practical instruction fee for an occasional student attending a course, or partial course, of laboratory work shall be based on the Lecture fee prescribed for occasional Students by the Senate statute, namely :

For each	such	course	comprising	not	more	than	15	hours....	$2 00
"	"	"	"	"	"		30	"	3 00
"	"	"	"	"	"		45	" ...	4 00
"	"	"	"	"	"		60	"	5 00
"	"	"	"	"	"		80	"	6 00
"	"	"	"	"	"		100	"	7 00
"	"	"	"	"	"		125	"	8 00
"	"	"	"	"	"		150	"	9 00
"	"	"	"		over		150	"	10 00

Subject to one rebate of $1 to an occasional student attending two or three courses, or partial courses, the aggregate fees for which would according to the aforesaid scale equal or exceed $10 : and to one rebate of $3 to an occasional student attending three or more of such courses, the aggregate fees for which would, according to the aforesaid scale, equal or exceed $15.

The annual practical instruction fee for an occasional student attending a course, or partial course, of laboratory work, shall be ascertained by adding for the purpose of calculation, to the number of lecture hours in the same course, or partial course, the number of hours of laboratory work therein ; and by rating the aggregate lecture and laboratory fee for that course combined accordingly, as for example :—

Assuming the course of lectures to comprise fifteen hours, and the course of laboratory work to comprise fifteen hours, making thirty in all, the total fee for the course of lectures and laboratory work combined shall be that prescribed above for thirty lecture hours, namely : $3.

The above provision for a rebate to an occasional student taking more than one course shall apply only to the combined courses and the aggregates so ascertained ; each course of lecture and laboratory work combined, being treated as one single course.

CHARGES FOR LABORATORY SUPPLIES.

Charges for supplies shall include laboratory materials and instruments used by or for the student, and ordinary wear and tear of instruments ; but not charges for waste, neglect and breakage, which are to be met out of a deposit, to be fixed by the Professor.

The annual supply charges for a matriculated student in Arts shall be according to the following table :—

—	Chemistry.	Mineralogy and Geology.	Biology.	Physics.	Psychology.	Totals.

FEES FOR OCCASIONAL STUDENTS IN ARTS, AND LIBRARY FEES.

1. "A course of lectures" means the continuous course of instruction, excepting laboratory work, offered in the University Faculty to students in Arts in any one year in any of the undermentioned subjects, namely : History ; Italian and Spanish ; History of Philosophy, Logic, Metaphysics and Psychology ; Political Science (including Political Economy, Jurisprudence and Constitutional Law) ; Mathematics ; Physics ; Chemistry ; Mineralogy and Geology ; Biology (including Physiology, Zoology, Botany and Histology ; and

any other separate subject in which instruction is or may be given by the teaching Faculty in the University of Toronto.

"A partial course of lectures" means any special course or any sub-division, complete in itself, of a course of lectures as above defined.

"A matriculated student in Arts" means a student in Arts who is matriculated in the University of Toronto and enrolled in University College or a Federating University, and whose name is entered with the Registrar of the University of Toronto.

"An occasional student" includes every student in whose case the Senate is by law authorized to determine fees for courses of lectures in the University of Toronto.

2. The annual fee for an occasional student attending a course, or partial course, of lectures shall be as follows :—

For each such course comprising not more than						15 hours	....	$2 00
"	"	"	"	"	"	30 "	....	3 00

3. An occasional student attending two or three courses, or partial courses, the aggregate fees for which would, according to the aforesaid scale, equal or exceed $10, shall be entitled to one rebate of $1 ; and an occasional student attending three or more of such courses, the aggregate fees for which would, according to the aforesaid scale, equal or exceed $15, shall be entitled to one rebate of $3.

4. Every matriculated student in Arts shall, during his undergraduate course, pay, at the time of the entry of his name with the Registrar, an annual library fee of $2.

5. No occasional or other student of any class shall be admitted to the library, save upon payment of an annual fee of $2.

N.B.—All the above fees are payable in advance, and in the case of fees for lectures, if not paid during the month of October (or in the case of students attending in Easter term only, during the month of January), an additional fee of one dollar per month will be imposed until the whole amount is paid.

The fee for each examination must accompany the application to the Registrar.

The fee for admission *ad eundem statum*, for change of faculty, for admission to a higher year on the certificate of the Head of an affiliated college, for dispensation from attendance at lectures, or for certificates of honor, must be paid to the Registrar at the time of application.

For fees for supplemental examinations, *vide ante* page 46.

TERM WORK.

Reports of attendance at pass lectures in the First and Second years shall be made in all departments except those of Chemistry, Natural Science and Physics, and marks for such attendance shall be assigned in connection with the May examination as follows :

For attendance at four-fifths and over	20	marks.
" " " two-thirds and over	13	"
" " " one-half and over	7	"

No student attending less than one-half the lectures shall receive any marks for attendance.

Reports on term pass work in the First and Second years shall be made in all departments except those of Chemistry, Natural Science and Physics. In the department of English four essays at least shall be required during the session from each student ; and the reports on term work in that department shall be based on the essays. In other departments the report on term work shall be based on those parts of the work which the professor or lecturer may deem most appropriate as tests of proficiency. The maximum number of marks to be assigned for term work in connection with the May examination shall be thirty.

Students to whom the foregoing regulations apply must obtain on the May examination at least thirty-three per cent. of the examination marks ; and must also obtain at least thirty-three per cent. of the aggregate number of marks assigned according to the following schedule :

May Examination	100
Term work	30
Attendance	20
Total	150

The Senate may for good reason excuse non-registered students from attending lectures, and shall in such case dispense with the requirements hereinbefore stated in regard to term work save in the case of English.

The Senate may upon the report of the University or College Council, based on the recommendation of a Professor or Lecturer, excuse registered students from term work and from attendance at lectures in any one or more subjects; but no exemption from term work shall be allowed in the case of English.

UNIVERSITY PRIZES AND SCHOLARSHIPS.

SCHOLARSHIPS.

The following scholarships have been founded and endowed in the University and are open for competition to all undergraduates in Arts, who are candidates for honors in the departments and years to which they are assigned :

POLITICAL SCIENCE.

THE BLAKE SCHOLARSHIPS, two of the value of $75 each, and two of the value of $50 each, the gift of the Hon. Edward Blake. These scholarships are open for competition alike to students in Arts in the honor department of Political Science, and to undergraduates in the Faculty of Law, taking the same examinations.

THE RAMSAY SCHOLARSHIP in Political Economy, of the value of $60, the gift of Mr. William Ramsay. This scholarship is open for competition to all graduates or undergraduates who have been placed in the First Class in one of the Economic subjects of the Fourth year in the honor department of Political Science (Third year in the Faculty of Law); but not more than two years must have elapsed since the competitor passed the examination above specified. The award is made upon an essay, the subject of which must be some question in Economics or Finance of interest to the commercial community in Canada, to be announced in May of each year, and the competition closes on the 15th of September thereafter, by which date the essays must be sent to the Registrar.

THE BANKERS' SCHOLARSHIP in Political Science of the value of $70, the gift of the Canadian Bank of Commerce, the Dominion, Imperial, Standard, and Traders' Banks, and the Union Bank of Lower Canada. Only such candidates are eligible as are of one year's standing and have passed the examination of the First year. A special examination on some special text-book of history or finance will be held at the time of the Supplemental examinations in September. This scholarship is not tenable with any other.

CLASSICS.

THE MOSS CLASSICAL SCHOLARSHIP, of the value of $120, founded by subscription in honor of the late Hon. Chief Justice Moss, Vice-Chancellor of the University.

For other scholarships and prizes in Classics *vide* pp. 74 and 75 under University College.

MATHEMATICS AND PHYSICS.

THE WILLIAM MULOCK SCHOLARSHIP in Mathematics, of the value of $60. The gift of William Mulock, M.A., Vice-Chancellor of the University.

Two scholarships in Physics of the value of $100 and $45 respectively. The gift of the Local Committee for the Toronto meeting of the American Association for the Advancement of Science. In awarding these scholarships, the theoretical and practical work in the department will be estimated in the proportion of three to one.

CHEMISTRY AND NATURAL SCIENCE.

THE DANIEL WILSON SCHOLARSHIPS, two of the value of $60 each. The gift of a friend. In awarding the Daniel Wilson scholarships, the theoretical and practical work in the several subjects will be estimated as follows :—In Chemistry, in the proportion of two to one; in Biology, in the proportion of one to one; in Mineralogy and Geology, in the proportion of two to one.

The years and honor departments to which the above-named scholarships have been assigned are as follows :—

IN THE FIRST YEAR.

One in Classics, (The Moss Scholarship) of	$120
The Bankers' Scholarship of	70

IN THE SECOND YEAR.

The Blake Scholarships in Political Science and Law, one of	$75
" " one of	50

Two in Physics, one of	100
" one of	45
One in Chemistry and Mineralogy (The Daniel Wilson Scholarship), of	60
One in Natural Sciences (The Daniel Wilson Scholarship), of	60

POST GRADUATE.

The Ramsay Scholarship in Political Economy, of	$60

All undergraduate scholars must sign a declaration of intention to proceed to a Degree in this University, and must attend lectures in some affiliated College for the academic year immediately following such examination; but the Senate may, upon satisfactory reasons being shown, permit such scholar to postpone attendance upon lectures for a year, in which case the payment of the amount of the scholarship shall likewise be postponed. The scholarships are paid in three instalments—on the fifteenth November, the fifteenth January, and the fifteenth March; and each scholar is required to send to the Registrar a certificate of attendance upon lectures at least three days before the date of each payment.

No scholarship will be awarded to any candidate who has been placed lower than the First Class in the department, or in any of the departments or sub-departments to which the scholarship is attached.

The scholarships hereinafter mentioned founded from the endowment fund presented by the Honorable Edward Blake, Chancellor of the University, are known as the Edward Blake Matriculation Scholarships.

THE FACULTY.

GREEK.

Professor: MAURICE HUTTON, M. A., Professor of Comparative Philology in the University, formerly Fellow of Merton College, Oxford (appointed 1887, previously Professor of Classical Literature); 67 Queen's Park.

Lecturer in Greek and Greek History:

LATIN.

Associate-Professor of Latin and Lecturer in Roman History: WILLIAM DALE, M.A. (appointed Lecturer in 1887 and Associate Professor in 1892, previously Lecturer in Classical Literature). University Residence.

Lecturer in Latin: W. S. MILNER, B. A., (appointed 1891); 33 Sussex Avenue.

The first Professor in the above subjects was the Rev. John McCaul, LL.D., who occupied the Chair of Classical Literature, Logic and Rhetoric, from 1843 till his retirement in 1880, when he was succeeded by the present Professor of Greek.

ENGLISH.

Professor: W. J. ALEXANDER, B.A., Ph.D., formerly Professor in Dalhousie College, and sometime Fellow of Johns-Hopkins University (appointed 1889); 111 Avenue Road.

Lecturer: DAVID R. KEYS, M.A. (appointed 1883); 36 Avenue Road.

The first Professor was the late Professor of History and Ethnology, Sir Daniel Wilson, who was appointed in 1853 to the Chair of History and English Literature. In 1884, the subject of English was separated from that of History, and a lectureship therein established to which Mr. Keys was appointed, he having been Lecturer in History and English combined since 1883. In 1889 a professorship in English was created and Professor Alexander appointed.

GERMAN.

Associate-Professor: W. H. VANDERSMISSEN, M.A. (appointed Lecturer in 1866 and Associate Professor in 1892); 15 Surrey Place.

Lecturer: J. H. CAMERON, B.A. (appointed 1891); 52 Borden Street.

In 1853 James Forneri, LL.D., was appointed Professor in Modern Languages, including French, German, Italian and Spanish. In 1866 this Chair was abolished and separate lectureships in each of the above subjects of French and German were established. Mr. vanderSmissen was appointed Lecturer in German, in which he is now Associate-Professor, and M. Emile Pernet occupied a similar position with regard to French, until his resignation in 1883.

ORIENTAL LITERATURE,

Professor: J. F. MCCURDY, Ph.D. (appointed Lecturer in 1886, Professor in 1888); 490 Spadina Avenue.

Lecturer: DAVID W. MCGEE, B.A. (appointed 1892), 52 Sussex Avenue.

The first lecturer in Oriental Literature was Mr. J. M. Hirschfelder, who was appointed in 1843 and retired in 1888.

ETHICS.

Professor: JAMES GIBSON HUME, M.A., Ph.D., Professor of the History of Philosophy in the University, formerly Fellow in Harvard College (appointed 1889), 42 Grange Avenue.

Until the appointment of the present Professor, the subject of Ethics was united with the other branches of Philosophy in a single professorship, the first incumbent of which was Rev. James Beaven, D.D., appointed 1843, died 1871. Rev. George Paxton Young, M.A., succeeded him and died in 1889.

Fellows.

Fellowships in the subjects mentioned below of the value of $500 each, are open for appointment each year. The selection is made immediately after the publication of the result of the University Examinations in May, from among the graduates of the University of Toronto.

The statute requires that each Fellow shall be appointed annually; but he may be re-appointed for a period not exceeding in all three years.

Each Fellow is required to assist in the teaching and practical work of the department; to pursue some special line of study therein; and to devote his entire time during the College Terms to the work of the department, under the direction of the Professor or Lecturer.

The statute provides that "The Fellows shall be appointed from among the graduates of the University of Toronto, on the recommendation of the College Council, and shall be selected with a special view to their aptitude for teaching, along with their acquirements in the work of the department to which each Fellowship is attached." And also that "Every Fellow on accepting his appointment shall come under an obligation to fulfil the duties of his Fellowship during the College Terms of the Academic Year in which he is appointed, unless specially exempted by resolution of the College Council."

Candidates must send in their applications annually to the College Registrar, not later than the first day of June.

The following are the present occupants of Fellowships in subjects of University College:

Latin:

French:

German:

For Fellowships in departments assigned to the Faculty of the University, see pp. 29 and 30.

STUDENTS.

1. The regular students include undergraduates of the University, and matriculants, *i. e.*, students who, though they have not passed the prescribed matriculation examinations, are taking the full undergraduate course.

2. Matriculated students are required to attend the lectures and examinations, on all subjects necessary for students of their respective standings. Certificates of attendance, during one or more academic years, will be given to those matriculated students who have been regular in their attendance on the required lectures, and who have passed the prescribed examinations.

3. Matriculated students are required to reside, during the period of their attendance on lectures, in the College or in houses selected by their parents or guardians, or approved by the President.

4. All interference with the personal liberty of any student, by arresting him, or summoning him to appear before any tribunal of students, or otherwise subjecting him to any indignity or personal violence, is forbidden by the Council. Any student convicted of participation in such proceedings will forfeit the certificate required for admission to the University Examinations, and will render himself liable to expulsion from the University.

5. Occasional students may be admitted to lectures on application to the President.

6. Certificates of attendance on lectures in any department during an academic year, may be given to occasional students who have been regular in their attendance, and who have also passed the examinations in such department.

FEES.

Graduates in Arts, who have pursued the undergraduate course in University College, may attend lectures free; but this privilege does not exempt them from laboratory and other special fees.

For regular students in Arts, "a course of lectures" means a continuous course of instruction offered to matriculated students in Arts in any one year in any subject.

"A partial course of lectures" means any special course or any sub-division, complete in itself, of a course of lectures as above defined.

"A matriculated student in Arts" means a student who is matriculated in the University, and enrolled in University College, and whose name is entered with the Registrar of the University.

"An occasional student" includes every student not being a matriculated student under the above definition, in whose case the Lieutenant-Governor-in-Council is by law authorized to determine fees for courses of lectures on the report of the Council of University College.

Every matriculated student in Arts shall, on each year's enrolment in University College, pay an enrolment fee according to the following table; which fee shall include all instruction for which fees are by law chargeable, except laboratory supply charges and library fees:—

TABLE.

FIRST YEAR.....	Any course or department	$25 00
SECOND YEAR....	Any course or department	25 00
THIRD YEAR	Chemistry and Mineralogy	20 00
	Natural Sciences.....	20 00
	Any other course or department..	25 00
FOURTH YEAR....	Chemistry & Mineralogy or Physics	20 00
	Biology.....	15 00
	Any other course or department..	25 00

The annual enrolment fee of a matriculated student in Arts taking under the regulations, more than one honor course, shall be $25 only.

The annual fee for an occasional student attending a course or partial course of lectures in University College shall be similar to the lecture fee prescribed by the Senate statute for occasional students namely :

For each course	comprising	not more than	15	hours..	$2 00
"	"	"	30	" ..	3 00
"	"	"	45	" ..	4 00
"	"	"	60	" ..	5 00

"	"	"	125	" ..	8 00
"	"	"	150	" ..	9 00
"	"	over	150	" ..	10 00

Subject to one rebate of $1 to an occasional student attending two or three courses or partial courses taken under this provision, or partly thereunder and partly under the Senate statute, the aggregate fees for which would, according to the aforesaid scale, equal or exceed $10 ; and subject to one rebate of $3 to an occasional student attending three or more of such courses, the aggregate fees for which would, according to the above scale, equal or exceed $15.

For each Certificate of Honor $1 00

N.B.—All the above fees are payable in advance to the Registrar, and if not paid during the month of October (or in the case of students attending in Easter term only, during the month of January), an additional fee of $1 per month will be imposed until the whole amount is paid.

TERMS.

1. The Academic Year consists of two terms; the first (*Michaelmas*) extending from October 1st to December 23rd; and the second (*Easter*) from January 2nd to May 31st.

2. The term will not be allowed to students who have been reported to the President by any of the Professors as neglecting to attend the required lectures, or have not conformed to the statutes and regulations of the College, or have been reported to the Council for bad conduct.

The enrolment fee of a matriculated student in Arts attending lectures for one term, or part of a term, shall be $15.

Obtain certificates of attendance.

STATUTE OF THE COLLEGE COUNCIL RESPECTING RESIDENCE.

1. Resident students are under the immediate charge of the Dean.

2. Only matriculated students in Arts registered in University College, and members of the University or College Arts Staff, are admitted as residents.

3. Each student upon entering is required to sign his name in the Dean's book to a declaration that he will conform to the statutes and regulations relative to resident students.

4. All interference with the personal liberty of any student by arresting him, or summoning him before any tribunal of students, or otherwise subjecting him to any indignity or personal violence, or by disturbing him in the possession of his room, is forbidden by the Council.

5. All use of beer, wine, or spirits in the students' rooms is strictly forbidden.

6. Resident students shall regularly attend morning and evening prayers, unless exempted from so doing in consequence of the objection of their parents or guardians.

7. A register shall be kept of the attendance of the residents at prayers, and also of the hours of passing the gate.

8. No stranger shall be admitted after the closing of the gate, nor remain in the building after 12 o'clock at night.

9. No student will be allowed to continue in Residence who is reported to the Council to be persistently neglecting his work.

10. The Dean is authorized to impose fines for infraction of Regulations, and for insubordination or disorderly conduct.

11. The authority to dismiss from Residence is vested in the College Council.

RULES.

1. The first morning bell shall be rung at 7.30 A.M. ; second morning bell and prayers at 8.10 A.M. ; breakfast from 8.15 to 9 A.M. ; lunch at 1 P.M. ; evening bell and prayers at 6.30 P.M. ; dinner from 6.40 to 7.15 P.M.; gate closed at 10.40 P.M.

2. No student shall remain out after 12 o'clock at night except by permission of the Dean.

3. Students may invite their friends to any meal, having informed the Steward, to whom they shall pay the charge fixed for such meal.

4. The officers of the College and non-resident students can purchase from the Steward tickets for meals.

5. The fee payable by resident students for board and rent of room varies from three and a-half to four dollars and a-quarter per week.

6. All fees of resident students are to be paid monthly in advance.

7. Resident students shall regularly attend their respective places of worship on Sunday.

CIRCULAR OF DEAN OF RESIDENCE.

University College.....

As your son (or *ward*) purposes coming into Residence in this College, I beg to inform you that it is the desire of the Council that, where there are no conscientious objections, all the students under their charge should be present in the hall at daily morning and evening prayers, with reading of the Scriptures. It is also their wish that they should regularly attend on Sundays their respective places of worship, and receive such other religious instruction as their parents or guardians may desire. I have to request that you will be so good as to let me know whether you desire your son (or *ward*) to attend such daily prayers in the College, and that you will also mention the Minister under whose charge you wish to place him.

The Council will afford every facility for the carrying out of your intentions, and with this view, will exercise such control over your son (or *ward*) during his residence, as may be best calculated to effect your wishes. In the event of your not informing me of your desire on the subject, the Council will assume that you have no objection to his being required to attend the daily prayers of the College, and will exercise an oversight as to his attendance on the ministrations of a clergyman of the denomination to which he belongs.

Victoria University.

Victoria University was founded by resolution of the Conference of the Methodist Church in Canada, held in Kingston, in August, 1830. The institution was opened for students on the 18th of June, 1836, with the Rev. Matthew Ritchie, M.A., as Principal. On the 12th of October, 1836, letters patent were issued incorporating the institution as a Seminary of Learning, for the Province of Upper Canada, under the name of "The Upper Canada Academy."

In 1841, the Parliament of the united Provinces of Upper and Lower Canada, being now first constituted by Act of the Imperial Parliament with authority to grant such a Charter, at its first Session held in the city of Kingston, passed an Act to incorporate the Upper Canada Academy under the name and style of "Victoria College, with power and authority to confer the degrees of Bachelor, Master, and Doctor of the various Arts and Faculties;" which Act was assented to by the Governor-General, on the twenty-seventh of August, 1841.

On the twenty-first of October, 1841, the Rev. Egerton Ryerson, having been appointed Principal, opened the first College session under the enlarged charter.

In the year 1844, the Rev. A. McNab, D.D., succeeded the Rev. Dr. Ryerson, as Principal, and occupied the office till 1849. At the close of his term the number of students in the College was 140.

In 1850, the Rev. S. S. Nelles, M.A., was appointed Principal and addressed himself to the task of organizing and enlarging the college to the status and work of a Uni-

versity. In the years 1854-55, the Faculty of Medicine was added and established in Toronto. In 1860, the Faculty of Law was added, and in 1871, the Faculty of Theology.

In the years 1883-84, a commission appointed by the General Conference of the Methodist Church arranged for the consolidation of Albert College, Belleville, with Victoria College, Cobourg, and legal effect was given to this consolidation by Act of the Legislature of Ontario, 47 Victoria, chap. 93.

The corporate name was, by this Act, changed to "Victoria University." The Government of the University was vested in a Board of Regents, Chancellor, Vice-Chancellor and Senate. To these bodies was given power to affiliate outlying colleges, and full University powers in all Faculties were continued. Rev. S. S. Nelles, D.D., LL.D., as President was *ex officio* first Chancellor, and William Kerr Q.C., LL.D., was elected Vice-Chancellor.

In 1887, the Rev. S. S. Nelles, D.D., LL.D., died, and the Rev. N. Burwash, S.T.D., was appointed President and Chancellor.

Under the provisions of the present charter the following colleges are affiliated in Arts with Victoria University: Albert College, Belleville; the Wesleyan Ladies' College, Hamilton; the Ontario Ladies College, Whitby; Alma College, St. Thomas.

On the twelfth of November, A.D. 1890, under the provisions of the Revised Statutes of Ontario, chap. 230, and the Acts amending the same, Victoria University was by proclamation of the Lieutenant-Governor federated with the University of Toronto.

By the provisions of the Federation Act, the President of Victoria University, a representative of the Senate of Victoria University, and five representatives of the graduates in

Arts become members of the Senate of the University of Toronto.

Five hundred and seventy-six graduates of Victoria University have been admitted to the standing and privileges of the degree of B.A., two hundred and twenty-five to those of M.A.; nine hundred and seventeen to those of M.D., eighty-six to those of LL.B., and twenty-nine to those of LL.D.

On the first of October, 1892, the Faculty of Victoria University occupied their new buildings in the Queen's Park, Toronto, and the federation of the Universities was practically consummated. The curriculum in Arts for all students of Victoria University is that prescribed by the Senate of the University of Toronto. The Faculty of Arts in Victoria University provides instruction in all subjects assigned by the Federation Act to University College. In other subjects the students of Victoria University will attend the lectures and laboratory practice of the University of Toronto.

The courses of instruction in the Faculty of Arts in Victoria University are in all respects parallel with those of University College.

The work of the University Faculty forms an essential part of the course of instruction for all students in Arts of Victoria University.

SECTION I.

RELIGIOUS SERVICES.

All students are expected to attend the public worship of God on the Lord's Day, at such churches as their parents or guardians may prefer. Morning prayers will also be held daily in the Chapel at which all students are expected to be present.

Other religious services will be held at suitable times, to which all students are cordially invited.

SECTION II.

RESIDENCE.

It is expected that a residence constructed upon approved modern principles, and affording healthful and comfortable accommodation for one hundred students will shortly be erected on the Victoria University grounds in the Queen's Park. In the meantime, carefully selected boarding houses will be licensed in which board and rooms may be obtained at prices varying from $3 to $5 a week.

SECTION III.

FEES.

Students in Arts will be subject to the regular fees on pp. 52-56.

In addition they will pay the following college fees on registration in the Faculty of Arts in Victoria University.

FIRST YEAR.....	Any Course or Department.....	$25 00
SECOND YEAR....	Any Course or Department	25 00
THIRD YEAR	Chemistry and Mineralogy, or Natural Science.....	20 00
	Any other Course or Department ..	25 00
FOURTH YEAR	Chemistry and Mineralogy or Physics	20 00
	Biology	15 00
	Any other Course or Department..	25 00

The fees payable for partial courses will be the same as those required in University College.

SECTION IV.

General Regulations.

1. Students are admitted to registration in the Faculty of Arts on having passed the Matriculation examination prescribed by the University of Toronto, or on giving the Faculty satisfactory evidence of their ability to pursue the courses of study proposed.

2. All students are required to observe the general regulations of the University of Toronto and of Victoria University in regard to attendance on lectures and examinations.

3. Students are required to board in such houses as are licensed by the faculty, except students residing with their parents, or with friends designated by their parents or guardians.

SECTION V.

Examinations.

All students of Victoria University desiring to take the examinations in Arts will present themselves at the Annual examinations of the University of Toronto. Such students are required to conform to all the general regulations prescribed by the Senate.

SECTION VI.

Scholarships, Medals and Prizes.

All scholarships and prizes of the University of Toronto are open to students of Victoria University on the general terms prescribed on p. 59, etc. This includes exemption from fees in Victoria as in University College.

The following prizes are offered for competition at the Victoria examinations of the Second and Third years respectively, to students of Victoria University (for conditions, see calendar of Victoria University):—

The Webster prize, the gift of J. G. Hodgins, LL.D., for English Literature.

The Hodgins prize, the gift of J. G. Hodgins, Esq., LL.D., for English Literature.

The Wallbridge Prize for Biblical Greek in the Third year.

The Clarke Prize for pass Ethics in the Third year.

The Ryerson Prize, the gift of J. G. Hodgins, Esq., LL.D., for Biblical Literature in the Third year.

The following medals will be awarded to students of Victoria University at graduation in Arts (for conditions of the award see calendar of Victoria University) :—

The Edward Wilson Gold Medal in Classics.

The W. E. Sanford Gold Medal in Mathematics.

The J. J. MacLaren Gold Medal in Moderns.

The E. J. Sanford Gold Medal in Philosophy.

The G. A. Cox Gold Medal in Natural Science.

The S. H. Janes Silver Medals in the five preceding departments.

FACULTY OF THEOLOGY.

FACULTY.

REV. NATHANIEL BURWASH, S.T.D., LL.D.,
President.
Edward Jackson Professor of Biblical and Systematic Theology.

REV. ALFRED H. REYNAR, M.A., LL.D.,
Professor of Ecclesiastical History.

REV. ERASTUS I. BADGLEY, B.D., LL.D.,
Professor of Apologetics.

REV. FRANCIS HUSTON WALLACE, M.A., B.D.,
Geo. A. Cox Professor of New Testament Exegesis and Literature.

REV. JOHN BURWASH, M.A., D.Sc.,
Professor of Practical Theology.

REV. JOHN FLETCHER MCLAUGHLIN, M.A., B.D.,
Professor of Old Testament Exegesis and Literature.

REV. PROF. WALLACE, M.A., B.D.,
Secretary of the Faculty.

COURSE OF STUDY.

Instruction is provided in the subjects of the ordinary Conference Course, the course for the degree of S.T.L., and the course for the degree of B.D.

The course for S.T.L. is a three years' course and presupposes the completion of the first year of the Arts course.

The course for B.D. is a higher three years' course and presupposes the degree of B.A.

Undergraduates in Arts may take certain Theological options and so shorten the B.D. course to two years after graduation in Arts.

For details as to these courses of study, Honors, Prizes and Regulations, see the calendar of Victoria University, or apply to the Secretary of the Theological Faculty, Rev. Prof. Wallace, M.A., B.D., 95 Bedford Road.

COURSES OF STUDY FOR DEGREES IN ARTS AND LAW.

* BIOLOGY.

1. ELEMENTS OF BOTANY :—

The examination will test whether the candidate has practically studied representatives of the flowering plants of the locality in which the preparatory school is situated, and representatives of the chief subdivisions of cryptograms, such as a fern, a lycopod, a horsetail, a liver wort, a moss, a lichen, a mushroom, and a chara.

A knowledge of structure is required, such as can be obtained with the use of the compound microscope. Attention will be given in the examination to drawing and description of parts of plants supplied, and to the classification of these. Comparison of different organs, morphology of root, stem, leaves, and hair, parts of the flower, reproduction of flowering plants, pollination, fertilisation, and the nature of fruit and seeds.

2. ELEMENTS OF ZOOLOGY :—

Practical study of the subject as defined in *The High School Zoology*, but limited by the author's syllabus of work.

The percentage required for pass standing shall be 25 per cent. on each paper, and 40 per cent. on the whole examination.

* Only for Candidates for Honors.

JURISPRUDENCE.

Third Year.

* THE HISTORY OF ENGLISH LAW.

In tracing the history of the English law an attempt is made to ascertain its condition from the Roman Conquest until the Norman Conquest ; to discover if any of the original Celtic or Druidical laws continued in force during the Roman occupation ; to what extent, if at all, the Roman law continued after the Saxon invasions ; and what were the laws of the Confessor so much cherished after the Norman Conquest by the conquered race.

* Only for Candidates for Honors.

The change effected in the law, especially of real property, by the Conqueror and his successors,—the introduction or extension of the feudal system ; the special difference between that system as existing on the continent and in England ; the creation of new tenures ; the great charter and its frequent renewals as showing the condition of the people, and the evils to be remedied.

The great changes effected by the legislation of Edward I and Edward III ; the creation of entailed estates ; the long struggle to obtain power to alienate them and its final success ; the legislation to restrict alienations in mortmain ; the continuous and skilful means taken to evade the law, and their final defeat ; the law giving power to devise lands, and the legislation of Elizabeth to prevent frauds upon creditors and purchasers ; the abolition of feudal tenures by Charles II, and the laws of his reign for the prevention of frauds and perjuries ; for the distribution of intestates, personal estates, and in favour of liberty by rendering the remedy by *Habeas Corpus* more effective. The efforts in the reign of George III to ameliorate the criminal law, and the English Statutes after 1792 that have their counterpart in our Colonial legislation are discussed and explained.

For reference : Reeve's History of English Law ; Hale's History of English Law ; Blackstone's Commentaries. Consult also a collection of English Statutes, and the Revised Statutes of Canada, and of Ontario.

* HISTORY OF ROMAN LAW.

The lectures on Roman Private Law comprise a rapid sketch of the history of the law from the time of the decemviri to the death of Justinian, giving an account of the growth of the unwritten law, of judicial legislation to the suppression of the formulary system by Diocletian, and from that time to the death of Justinian, and treating of the statutory legislation during the Republic and under the Empire, and of the several attempts to form a code, finally terminated by the work of Justinian.

The larger number of lectures is devoted to the substance of Roman Law during the reign of Justinian ; embracing a description of the persons and things recognized by the law ; and as to the creation, extinction, and exercise of rights, and to the performance

of duties; as to the rights of ownership, and the qualification of them; as to the modes of acquiring ownership, and the modes of protecting it. The nature and objects of obligations, the parties to them, and the extinction of obligations by fulfilment or otherwise are discussed. The constitution of the Roman Family is explained, and the laws applicable to its different members, as husband and wife, parents, children, and slaves, are noticed and commented on. The offices of guardians and trustees, and the rights, duties, responsibilities, and liabilities of guardians and trustees are stated and explained.

The rules of succession to an intestate, the selection of an heir in such case by operation of law, and the changes in the law at different periods, ending in the final legislation of Justinian, are stated and explained. The law of testamentary succession, the various kinds of wills, the duties of the heir, the gift of legacies, and the history of trust gifts and codicils are explained.

The remedial processes for the protection and enforcement of rights are traced from the *legis actiones*, the changes effected by the formulary system, the summary jurisdiction of the prætor, the abolition of the formulary system, terminating in the *extraordinaria cognitio*. The system of judicial administration in the time of Justinian, and the progress of a suit in his time are explained.

The series is closed by a discussion of the law as to specific performance of contracts; of the law as to frauds upon creditors; and an examination of the influence of Christianity upon Roman legislation.

For reference: Muirhead's Historical Introduction to the Private Law of Rome; Sandars' Justinian; Institutes of Gaius, translated by Muirhead. The Digest, the Code, and the Novels should be consulted.

Fourth Year.

* GENERAL JURISPRUDENCE.

*Theory of Equations. (For Reference—Burnside and Panton).

Third Year.

Elementary Treatment of the Doctrine of Probability.

Fourth Year.

Elements of Astronomy.

*Modern Geometry or Plane Astronomy.

*Higher Plane Curves.

*Higher Algebra.

*Differential Equations.

*Theory of Probability.

*Quaternions.

(*a*) Optional except where specially prescribed

* Only for Candidates for Honors.

PHYSICS.

First Year.

Elements of Statics, Dynamics, Hydrostatics, and Heat.

Second Year.

Elements of Geometrical Optics, Electricity, and Magnetism.

Third Year.

Elements of Acoustics.
*Analytical Statics (Minchin).
*Dynamics of a Particle (Tait and Steele).
*Newton's Principia, Secs. II and III.
*Geometrical Optics. (Course set forth in Prof. Loudon's Syllabus).
*Hydrostatics (Besant).
*Rigid Dynamics.
*Practical Work in the Laboratory.

Fourth Year.

*Elasticity.
*Hydrodynamics.
*Acoustics.
*Physical Optics (Verdet).
*Thermodynamics (Clausius).
*Electricity and Magnetism.
*Method of Least Squares (Wright).
*Practical Work in the Laboratory.

PHYSICAL LABORATORY.

The Physical Laboratory which has been lately established, is furnished with a large collection of apparatus for lecture experiments in the department of Mechanics, Sound, Light, Heat, and Electricity. It is also well supplied with instruments of precision for individual work in the same departments. In addition to an Elementary Laboratory, there are several special laboratories which offer unusual facilities for the conduct of experiments in the various branches of Physics. A workshop is provided in connection with the laboratory.

* Only for Candidates for Honors.

DEPARTMENT OF CHEMISTRY AND MINERALOGY.

The details of the lectures delivered in this department will be found under the heads of Mathematics, Physics, Chemistry, and Mineralogy. The prescription of work for examinations is as follows :—

First Year.

Elements of Analytical Geometry.
Elementary Chemistry.

Second Year.

Elementary Differential and Integral Calculus.
Physics : Theoretical and Practical, comprising Mechanics, Hydrostatics, Heat.
Inorganic Chemistry with Laboratory Practice.
Mineralogy : Theoretical and Practical.

Third Year.

Light, Heat, Electricity : Theoretical and Practical.
Organic Chemistry with Laboratory Practice.
Spectrum Analysis and Determinative Mineralogy.
Crystallography.

Fourth Year.

History of Chemical Theory.
Advanced Inorganic and Organic Chemistry.
Physical Chemistry with Laboratory Practice.
Advanced Mineralogy and Crystallography.
Assaying (practical).

CHEMISTRY.

The lectures and practical work in Chemistry will be given in the School of Practical Science.

Second Year.

Elementary Chemistry.
*Inorganic Chemistry.
*Physical Chemistry.
*Laboratory Practice.

Third Year.

*Organic Chemistry.
*Chemical Physics.
*Laboratory Practice.

Fourth Year.

*Advanced Inorganic Chemistry.
*Advanced Organic Chemistry.
*Stereo-chemistry.
*History of Chemical Theory.
*Theory of Chemical Affinity.
*Physical Chemistry.
*Laboratory Practice.

The laboratory practice includes qualitative and quantitative analysis and the preparation of a selected number of inorganic substances, for the Second year ; quantitative analysis (volumetric) and the preparation of organic substances, for the Third year ; investigation of the laws of chemical change, the properties of chemical compounds, and a selected research, for the Fourth year.

Students working in the laboratory are provided with the necessary apparatus on making a deposit at the commencement of the session, which will be returned at the end of the session after the following charges have been deducted from it: (1) the cost of all apparatus broken or destroyed; (2) any fines for breach of laboratory rules.

DEPARTMENT OF NATURAL SCIENCES.

The details of the lectures in this department will be found under the heads of Physics, Chemistry, Biology, and Mineralogy and Geology. The prescription of work for examinations is as follows:—

First Year.

Elementary Chemistry.
Elementary Physics with laboratory work.
Elementary Geology and Physical Geography.
Elementary Biology.
Practical work in Biological laboratory; special attention will be given in the examination to accuracy and neatness in drawing.

Second Year.

CHEMISTRY.

Inorganic Chemistry.
Qualitative Inorganic Analysis.

BIOLOGY.

Structure and classification of flowering plants, with special reference to the Canadian flora.
Zoology of vertebrata.
Canadian vertebrate fauna.

For Laboratory Work.

The candidate is expected to be familiar with the principal methods employed in the investigation of the structure of plants and animals, with the structure of the forms described in Huxley & Martin's Elementary Biology, and with the Histology of the higher types of these.

MINERALOGY AND GEOLOGY.

Elementary Mineralogy.
Geology and Physical Geography.
Principles of Crystallography.
Use of the blowpipe in the practical examination of minerals.

Third Year.

CHEMISTRY.

Organic Chemistry.
Qualitative and Quantitative Analysis.

BIOLOGY.

Structure and classification of cryptogamic plants, with practical knowledge of typical forms of the various orders.
Vegetable Physiology.
Zoology of invertebrata, with practical knowledge of typical forms of the various orders.

MINERALOGY AND GEOLOGY.

Economic Minerals of Canada, with practical determinative work.
Palæontology (invertebrata).

Fourth Year.

The candidate may select either of the following divisions for examination:

DIVISION I.—BIOLOGY.

Classification and comparative anatomy of vertebrata.
Palæontology of vertebrata.
Embryology of vertebrata.
Physiology.
Histology.
Physiological Chemistry.
Bacteriology in its Biological and Chemical aspects.
History of modern Biological problems.

DIVISION II.—MINERALOGY AND GEOLOGY.

Crystallography and advanced Mineralogy.
Geology of Canada.
Palæontology of vertebrata.
Mining Geology.

Candidates in the Honor department of Natural Sciences will be required to present certificates of attendance at the laboratories of the University of Toronto, or of one of the Colleges in affiliation with the University as follows :

In the second year :	of	100	hours	in Biology.
" "	"	120	"	in Chemistry.
" "	"	75	"	in Mineralogy and Geology.
In the third year :	of	160	"	in Biology.
" "	"	160	"	in Chemistry.
" "	"	100	"	in Mineralogy and Geology.
In the fourth year :	of	400	"	in Biology.
" "	"	200	"	in Geology.

BIOLOGY.

The lectures and practical instruction in this subject are given in the University Biological Department.

The following arrangements will be in force for 1892-93 :—

1. A course of elementary lectures on Biology will be given three days a week to prepare candidates for the University examination of the first year.

2. A course of lessons involving 100 hours' instruction given in connection with the above course of lectures for students entering the Honor department of Natural Sciences. A laboratory supply fee of $2 will be charged to members of the practical class for the use of microscope and material for study. But each member will be required to provide himself with a case of instruments and an engraver's lens, both of approved patterns.

3. In addition to attending the course of lectures under sec. 1, candidates for Second year Honor examinations will attend a special course on the Zoology of the vertebrata during the Michaelmas Term, and a series of demonstrations on selected topics in Physiology during Easter Term.

4. The practical course for Honor students of the Second year will be devoted to the study of typical forms of plants and animals, such as are treated of in *Huxley and Martin's Elementary Practical Biology*, new edition. There will also be opportunities for the study of the Canadian vertebrate fauna (Text-book *Jordan's American Vertebrates*), but the student is expected to have familiarized himself with the Canadian flora during the preceding long vacation. (For reference, *Spotton's Canadian Flora*, or *Gray's Manual.*)

5. Honor students of the Third year will study the Zoology of the Invertebrata three days a week during the Michaelmas and part of the Easter Terms, and during the remainder of the Easter Term, Cryptogamic Botany and Vegetable Physiology.

BOOKS OF REFERENCE.

Goebel's Outlines of the Classification of Plants.
Vines's Lectures on the Physiology of Plants.
Claus's Zoology, translated by Sedgwick.

6. The practical course for Third year students will be devoted to the study of typical forms of cryptogamic plants and invertebrate animals.

7. *Wiedersheim-Parker's Elements of Comparative Anatomy of the Vertebrata*, and *Foster's Physiology*, last English edition, are recommended for honor students of the Fourth year, and the following works will be required in the practical course.

Stöhr's Handbuch der Histologie.
Parker's Zootomy.
Foster and Balfour's Embryology.
Bunge's Physiologische Chemie.

Works of reference on Bacteriology and the other subjects specified in the University curriculum will be found in the laboratory.

8. Honor students of all years are required to pay in advance to the Registrar laboratory supply fees.

MINERALOGY AND GEOLOGY.

Lectures or courses of practical instruction are given (so far as time will allow) on the following subjects:—

Second Year.

Elementary Geology, Physical Geography, and Palæontology.
*Mineralogy, Crystallography, Blowpipe Practice.

Third Year.

*Practical determination of Minerals; Economic Minerals of Canada; Palæontology (Invertebrata); Spectrum Analysis in Mineral Examinations.

Fourth Year.

*Mineralogy and Crystallography; Physical Geography, Geology, and Palæontology (Vertebrata; Mathematics and Crystallography; Geology and Palæontology of Canada; Mining Geology; Assaying.

Books of Reference:

SECOND YEAR.—Dana's Manual of Mineralogy; Dana's Text-book of Geology; Chapman's Mineralogy and Geology of Canada, 3rd ed.; Page's Physical Geography; Johnston's Elementary Physical Atlas; Chapman's Outline of Blowpipe Practice; Chapman's Mineral Indicator.

THIRD YEAR.—Chapman's Mineral Tables; Tables for the determination of Minerals by Brush or Von Kobell; Chapman's Synopsis of Palæontology.

FOURTH YEAR.—Dana's System of Mineralogy, 5th ed.; Chapman's Outline of the Geology of Canada (1876); Nicholson's Manual of Palæontology; Kerl's Probirkunst, or Mitchell's Assaying, by Crookes; Chapman's Assay Notes.

Students taking practical work in this department are required to provide themselves with necessary apparatus (apart from furnaces, balances, etc.). Students of the Second year must be provided with a set of blowpipe apparatus and a book on blowpipe practice, and will be required to pay a laboratory supply fee of $1. Students of the Third year must provide themselves (in addition to the apparatus of the second year) with a book of determinative mineralogy, and will pay a laboratory supply fee of $2. Students of the Fourth year will pay a laboratory supply fee of $4.

* Only for Candidates for Honors.

Law Faculty.

The subjects of examination and lectures in the First, Second and Third years of the Faculty of Law are identical with those in the Second, Third and Fourth years of the Department of History and Political Science in the Faculty of Arts (see pp. 117-130 above).

FOURTH YEAR.

The subjects of examination in the Fourth year are as follows:

1. REAL PROPERTY .....Leith's *Blackstone and* Digby's *History of the Law of Real Property.*
2. TORTS. .....Pollock *on Torts and* Bigelow *on Torts.*
3. DOMESTIC RELATIONS....Eversley *on Domestic Relations.*
4. CORPORATIONS.....Lindley *on Corporations.*
5. CRIMINAL LAW. .....Harris, *Criminal Law.* Taschereau, *Criminal Statutes of Canada.*
6. COMMERCIAL LAW .....Smith, *Mercantile Law and* Chalmers *on Sales.*
7. EQUITY .....Snell, *Principles of Equity.*
8. CONFLICT OF LAWS .....Westlake, *Private International Law.*

Graduates in the Faculties of Arts or Medicine are allowed to substitute for the requirements in the First, Second and Third years, an examination in the following subjects:—

1. The History of English Law.
2. The History of Roman Law.
3. The Law of Contracts.
4. General Jurisprudence.
5. English and Colonial Constitutional Law.
6. Federal Constitutional Law.
7. International Law.

8. Political Economy (either the examination in the elementary Political Economy of the Second year in the Political Science course or that of the Fourth year in the Pass course), unless they have already passed one of these examinations as part of their B.A. course, in which case they shall pass the examination in English Constitutional History of the Second year in the Political Science course.

Graduates availing themselves of this alternative are allowed to divide the work here prescribed, taking a portion in one year and the residue in a subsequent year.

Graduates availing themselves of this second alternative are not permitted to proceed to any part of the examination in the Fourth year in Law, unless they have already passed in a previous year or in previous years, the examination in at least five out of the eight subjects here prescribed.

Medical Faculty.

COURSES OF LECTURES

AND

METHODS OF INSTRUCTION.

WINTER SESSION, 1893-94.

ANATOMY.

Professor : J. H. RICHARDSON.

Associate-Professor and Demonstrator : A. PRIMROSE.

Lecturer : H. W. AIKINS.

Senior Assistant-Demonstrator : F. N. G. STARR.

Assistant-Demonstrators : W. B. THISTLE, A. R. GORDON, F. W. CANE, F. WINNETT, B. E. MCKENZIE.

Lectures :—A course of lectures will be given in the Biological Department for students of the First and Second years ; in this course the structure of the human body will be described in a systematic manner ; the various organs of the body will be examined with their more important relations and connections. In order that the course may be more comprehensive certain principles in general morphology and development will be elucidated. The lectures will be illustrated by recent dissections, by wet and dry preparations and by drawings and diagrams.

Tutorial instruction will be given to limited classes for the purpose of studying osteology, and for demonstration of the central nervous system and special sense organs.

A course of lectures will be given at the University Medical building, on Gerrard street, for students of the Third

and Fourth years. This course will consist of a systematic study of the regional anatomy of the human body as applied in the practice of medicine and surgery. The lectures will be illustrated by suitable preparations and a series of demonstrations of landmarks will be conducted on the living subject.

Demonstrations:—A series of demonstrations will be conducted daily for students of the Second year. In this class the main facts in gross human anatomy will be demonstrated from recent dissections.

Dissection:—The dissecting-room will be open daily from 9 a.m. until 6 p.m. on Monday, Tuesday, Wednesday, Thursday and Friday, and from 9 a.m. to 1 p.m. on Saturday. Students will be required to conduct their work in a systematic fashion and to conform to the regulations in force in the dissecting-room. One or more of the Assistant-Demonstrators will be in attendance at all times for the purpose of superintending the work of the students, and for giving instruction. Examinations will be conducted from time to time on the parts dissected and marks allotted for the work done.

Museum:—In connection with the dissecting-room a series of preparations have been mounted for the purposes of study. The disarticulated bones of the skeleton are included in this collection, together with frozen sections of the human body; wet preparations, illustrating regional anatomy, are also provided. Arrangements are such that a student may obtain bones from the osteological store-room, which he may take home for a limited period, if desired.

A pamphlet will be issued containing directions for the guidance of students of the class of anatomy, with the regulations for the dissecting-room. This should be procured by all students enrolled in the anatomical department.

SURGERY.

Professor of Surgery: W. T. AIKINS.

Professors of Clinical Surgery: { L. MCFARLANE. I. H. CAMERON.

Associate-Professor of Surgery and Clinical Surgery ..... G. A. PETERS.

A course of lectures will be devoted to a consideration of the principles involved in the practice of surgery, and the commoner forms of surgical injuries and diseases will be discussed in all their aspects. The lectures will be illustrated by plates and specimens from the museum, and by operations on the cadaver.

There will be classes formed to receive personal instruction in bandaging, the proper application of surgical appliances, and the use of instruments.

A course of clinical instruction will be conducted at the Toronto General Hospital, and will include: I. A series of clinical lectures delivered in the large theatre; and II. Bedside instruction in the wards. Special attention will be paid to the consideration of surgical diseases and injuries at the bedside of the patients; the symptoms and diagnosis will be discussed, and appropriate treatment suggested and, as far as possible, carried out in the presence of the students. The surgical dressers are required to do a large share of the work in applying suitable dressings, reducing fractures, etc.

In conducting the clinical teaching, the students of the Third and Fourth years will be divided into small classes, in order that as much personal and individual instruction as possible may be imparted. In this way an opportunity is afforded each student of making a thorough personal examination of all cases that come before the class.

PATHOLOGY.

Professor: J. CAVEN.

Demonstrator: J. AMYOT.

The course will embrace lectures on general and special pathology, together with demonstrations in both gross morbid anatomy and pathological histology. The lectures to the Third year will be mainly upon general pathology, and those to the Fourth year upon special pathology. Post mortem examinations are performed by the Professor of Pathology at the General Hospital, and the students of the Fourth year will be expected to take part in these. Gross demonstrations in addition to those in the Hospital Mortuary are given in the College class-rooms every week, and will be so arranged that students of both Third and Fourth years may take advantage of them. The University having equipped a pathological laboratory in the school building, and a clinical laboratory in the General Hospital, every facility for microscopic work in tissues and fluids is afforded. At least seventy-five slides of morbid tissues are mounted by each senior student, and four hours demonstration in microscopic work per week given in each year. Clinical clerks receive regular instruction in analysis of urine, examination of blood, sputum, etc., in the Hospital Clinical Laboratory.

MEDICINE.

Professor of Medicine and Clinical Medicine: J. E. GRAHAM.
Associate-Professor of Medicine and Clinical Medicine ..... A. MCPHEDRAN.
Lecturer in Clinical Medicine: W. P. CAVEN.

The subjects of medicine and clinical medicine being under the same teachers, every possible effort will be made to combine the work of the lecture-room with the clinical work in the wards of the hospital, so as to illustrate, as far as possible, the lectures by observations and discussions of cases at the bedside.

In the lectures, all the internal diseases met with in this country will be discussed, and every opportunity taken to demonstrate them in the wards. Their pathological anatomy will be demonstrated by morbid specimens from the University museum, as well as by fresh material furnished by the pathologist from the post-mortem room.

In the hospital work, both Third and Fourth year students will be taken daily into the wards, where instruction will be given to classes at the bedside, and each student required to take part in the examination of the patients.

Students will act as clinical clerks, and will be required to keep accurate and complete histories, which will from time to time be criticised before the class. Fourth year students will be called upon to examine all new patients before the class, and to interpret the significance of the conditions found.

Small classes will be formed of the junior students for the study of the methods of examination and the interpretation of symptoms, the utmost care being taken to develop accuracy of observation and of interpretation.

PHARMACOLOGY AND THERAPEUTICS.

Professor of Pharmacology and Therapeutics: ..... J. M. MacCallum.

Demonstrator of Materia Medica and Elementary Therapeutics: O. R. Avison.

Pharmacy and therapeutics includes the course in the following, among other special topics: 1. The physiological action of drugs (or pharmacology), therapeutical uses and modes of administering remedies; 2. Food and drink, considered generally and in reference to disease; 3. Heat and cold; 4. Electricity; 5. Massage.

The following subjects will be included in the course of materia medica and pharmacy:

1. The physical characters of drugs. Provision will be made for all students of the class to secure a complete set of specimens.

2. Other information concerning drugs of interest or value, as

(*a*) The nature and percentage of their medicinal constituents, and their solubility in various menstrua.

(*b*) Their general medicinal properties, and the ordinary and poisonous doses.

(*c*) The various pharmaceutical forms in which they are usually kept for dispensing purposes.

3. Such a consideration of pharmacy as will enable the student to form a correct judgment of the value of the many forms in which medicines are prepared for dispensing.

This will require a discussion of the general principles of pharmacy, the comparative values of the various solving menstrua and the effect upon drugs of the different pharmaceutical methods used.

4. Instruction in the art of prescribing, indicating the means of ensuring that mixtures may be therapeutically effective, free from incompatibility, and pleasing to the eye and taste.

GYNÆCOLOGY AND OBSTETRICS.

Professor of Gynæcology : U. OGDEN.
Professor of Obstetrics : A. H. WRIGHT.

As such very ample means are now furnished in other departments for the study of the anatomy, physiology and pathology of the parts concerned, the Professor of Gynæcology will devote his time altogether to the various methods of examination and diagnosis; the use and application of instruments; and the symptoms, diagnosis and treatment of diseases peculiar to women.

The disorders of menstruation, leucorrhæa, chlorosis, parametritis and perimetritis, tumors and displacements of the uterus, diseases and displacements of the ovaries, lacerations of the cervix uteri and perineum, and abdominal surgery will be treated of and illustrated by large plates, casts and morbid specimens in the didactic course, while operative gynæcology will be fully demonstrated by the Professor in his clinic in the Toronto General Hospital.

There will be two separate courses in obstetrics; one for the students of the Third year in physiological obstetrics, and one for students of the Fourth year in pathological obstetrics.

The Third year course in physiological obstetrics will include the following: anatomy and physiology of the female organs of reproduction; physiology of pregnancy; physiology, mechanism, and management of labor; management of the puerperal state; management of the infant.

The Fourth year course on pathological obstetrics will include: diseases of pregnancy, abortion and premature labor, dystocia, accidents before and after delivery, obstetric operations, puerperal diseases including septicæmia.

Practical demonstrations will be given on the phantom or cadaver, and diagrams, specimens, models, etc., will be used in illustrating the various subjects treated in the two courses.

OPHTHALMOLOGY, OTOLOGY, LARYNGOLOGY AND RHINOLOGY.

Professor of Ophthalmology and Otology: R. A. REEVE.

Clinical Lecturer in Ophthalmology and Otology ..... G. H. BURNHAM.

Clinical Lecturer in Laryngology and Rhinology ..... G. R. MCDONAGH.

In addition to a short course of didactic lectures on diseases of the eye and ear at the College, practical instruction will be given four times in the week at the clinics at the Provincial (Mercer) Eye and Ear Infirmary, Toronto General Hospital.

In the department of laryngology and rhinology, a course of practical lectures on the commoner forms of disease of the throat and nose will be given, and in the General Hospital opportunities for examining patients will be presented twice a week.

HYGIENE.

Professor: W. OLDRIGHT.

The student is recommended to obtain from one of the works mentioned in the list of "text books," an elementary knowledge of the subject of each next succeeding lecture. The information thus obtained will be supplemented in the lectures, and fuller consideration will be given to those points which require special attention on account of differences of climate, population, occupations, social and political organization, and other circumstances in Canada. Students will also be guided in regard to sources of information and current literature relating to health work in this country.

In addition to the theoretical teaching, practical demonstrations will be given by means of various instruments, and the following subjects will be embraced in the course: air, impurities and their effects, ventilation and heating; hygienic architecture; climatology; sewerage and disposal of refuse; water supplies; foods, dietaries, adulterations; occupations; exercise and overwork; clothing; baths; contagion and infection, management of epidemics, quarantine; duties and functions of medical health officers and boards of health; vital statistics; sanitary legislation,—federal, provincial, and municipal.

TOXICOLOGY.

Lecturer: W. H. ELLIS.

A series of lectures and demonstrations on toxicology is given under the following heads:—

THE NATURE OF POISONS.

Their properties, physical, chemical, and physiological.

THE OCCURRENCE OF POISONS

In nature, in the arts, and in common life. Danger from poisoning incidental to particular callings. Genesis of poisons in the dead and living body.

ANTIDOTES TO POISONS.

THE DETECTION OF POISONS.

Identification of poisons in the pure state. Separation from organic matter.

Post-mortem examinations for poison.

MEDICAL JURISPRUDENCE.

Medical Lecturer : B. SPENCER.

Legal Lecturer : HON. DAVID MILLS.

The course will embrace the discussion of the following subjects in their medico-legal aspects :—

Reports and written opinions ; expert evidence.

The identity of the person—living and dead.

Death ; its causes, signs, and period of occurrence. Apparent death ; autopsy ; exhumation.

Injuries to the person,—in connection with which will be considered wounds and other external injuries ; blood-stains ; suffocation, hanging and strangling ; drowning and starvation.

Poisoning ; its clinical symptoms and pathological appearances.

Offences against chastity, including rape, concealment of pregnancy, criminal abortion and infanticide.

Live birth, legitimacy, congenital defects and feigned diseases.

Suicide.

Nuisances ; arson ; forgery.

MENTAL DISEASES.

Extra-Mural Professor: D. CLARK.

The course of lectures will be chiefly clinical, and given at the Asylum. The subjects discussed will be of a practical nature as far as possible, and may be classified as follows :—

1st. Definitions and errors arising therefrom in the study of insanity.

2nd. The brain and its exceptional construction and functions.

3rd. The brain as an organ of the mind.

4th. Sanity and insanity in their relation to one another.

5th. Different forms of insanity, illustrated by patients.

6th. The moral treatment of the insane.

7th. The medical treatment of the insane in the various forms of their disease.

THE FOLLOWING CLASSES OF THE ARTS FACULTY OF THE UNIVERSITY WILL BE ATTENDED BY STUDENTS OF MEDICINE :—

BIOLOGY AND PHYSIOLOGY.

Professor of Biology: R. RAMSAY WRIGHT.

Professor of Physiology : A. B. MACALLUM.

Assistant-Demonstrator in Biology : R. R. BENSLEY.

1. Students of the First year will attend a course of lectures on general biology and elementary physiology, to be given three days a week throughout the session.

2. A practical course of fifty hours' duration, illustrating the above and serving as an introduction to the use of the microscope, will be conducted by the Assistant-Demonstrator under the supervision of the Professor of Biology. A supply fee of $1.50, covering the use of a microscope and the

necessary materials for study is to be paid in advance to the Registrar.

During the Easter term there will be given a series of thirty lectures and demonstrations on special topics in physiology.

3. The students of the Second year will attend throughout the session a course of lectures and demonstrations in advanced physiology. The demonstrations, which will cover such a wide range of the subject as the largely increased number and variety of the instruments at the command of the department will permit, will be specially illustrative of the points advanced in the lectures. Arrangements will also be made for holding, during the session, weekly class reviews on the subject matter of the lectures.

4. The instruction in embryology and histology will consist of twenty lectures during the Michaelmas term, and a practical course involving fifty hours' work in the laboratory. The latter will be conducted by the Assistant-Demonstrator, and the student will have the opportunity of providing himself with a set of fifty typical illustrative preparations, as well as of becoming acquainted with the methods of histology. The supply fee for this class, including the use of microscope, reagents, etc., is $2.75, and is payable in advance to the Registrar.

BIOLOGICAL MUSEUM.

The University Biological Museum forms the central portion of the buildings belonging to the Biological Department. It is as yet only partly furnished; no provision having been so far made for considerable part of the natural history collections; but the models, dissections and other preparations serving to illustrate the comparative anatomy and develop-

ment of animals have been arranged in cases specially facilitating their study, and will form a most important aid to the student. The considerable losses sustained by the University fire have been in part repaired by gifts from public bodies and private individuals, and it is hoped that the large collections will soon be made available to the public.

CHEMISTRY.

Professor : W. H. PIKE.

Lecturer : W. H. ELLIS.

Demonstrator : W. L. MILLER.

The students of the First year attend the lectures of the professor of chemistry. A second course of lectures on organic chemistry is given to students of the Second year.

The instruction given in practical chemistry includes : a systematic course of laboratory work in qualitative chemical analysis ; the practical examination in the laboratory of the more important and commonly occuring constituents of the animal body and of the secretions, and a series of lectures and demonstrations on the application of chemistry to toxicology, sanitary science and clinical medicine. A supply fee of $3.00 is to be paid in advance each year to the Registrar.

PHYSICS.

Professor : JAMES LOUDON.

Lecturer : C. A. CHANT.

An introductory course of experimental lectures on physics will be given to students of chemistry, of natural sciences, and of medicine.

THE TORONTO GENERAL HOSPITAL.

The following members of the Faculty are members of the staff of the General Hospital :—

The hospital has now 400 beds, and during the year the number of in-patients under treatment has varied from 250 to 300. During last year about 3,385 patients were admitted, and large numbers of patients daily received treatment in the out-door department.

All the patients in the hospital are, as a rule, suffering from acute medical and surgical diseases; the chronic cases are generally sent to the Home for Incurables or House of Providence, and the convalescent patients are sent to the new Convalescent Home, recently erected on Wells' Hill.

CLINICAL TEACHING.

Clinical instruction is given in the various departments of the hospital on all classes of patients.

I. *Theatre Lectures:*—Clinical Lectures are given daily, over patients brought from the wards to the large theatre, by the professors of clinical medicine and of clinical surgery to the students of the Third and Fourth years.

II. *Instructions in the Wards:*

(*a*) Medicine and Surgery:—A systematic course of bedside instruction is given to limited classes of students. Arrangements are such that each physician and surgeon or his assistant is in daily attendance for the purpose of imparting instruction at the bedside; by this means provision is made for continuous daily work in the ward, and students of both Third and Fourth years are required to avail themselves of it.

(*b*) Gynæcology:—Small classes of students receive instruction in diseases peculiar to women in the pavilion specially devoted to the treatment of such patients. These classes meet twice a week.

(*c*) Obstetrics:—In the Burnside Lying-in-Hospital, in which there are over 150 births a year, final students are permitted to witness and assist in the conduct of *labors*. Students are also allowed to make engagements with out-patients and to attend them in confinements at their own homes.

(*d*) Ophthalmology, otology, laryngology and rhinology:—Diseases of the eye, ear, throat and nose are studied in the wards of the Andrew Mercer Infirmary.

III. *Surgical Operations:*—Surgical operations are performed in the large theatre on Saturday afternoons, or in cases of emergency at any time during the day or night when required. The theatre, which has been recently altered and enlarged, is capable of seating 600 students, and in the completeness of its arrangements is not excelled. The facilities afforded the students situated in all parts of the room for witnessing operations in all their details are unusually good.

IV. *Out-patient Clinics* :—The new addition to the hospital for the accommodation of out-patients affords ample facilities for instruction in the important class of diseases which here pass under observation. A physician and a surgeon are in attendance daily, and instruction is given on the patients. The cases presenting themselves in the special departments of the hospital devoted to diseases of the eye, ear, etc., are available in the same manner. There will also be an out-door clinic in gynæcology.

V. *Pathology.*

(*a*) Autopsies :—These are performed at stated hours by the Professor, or the Demonstrator of Pathology. The examinations are conducted in a systematic way, and instruction on the morbid conditions found are imparted to the students. The bearings of the gross post-mortem appearances on the conditions previously found at the bedside are carefully investigated, and, when necessary, arrangements are made for further examination, microscopical and chemical.

(*b*) The examination and analysis of the various fluids, excreta and pathological products of patients in the wards, are conducted in the University Hospital laboratory. Students are required to keep systematic records of the results obtained by these examinations.

CLINICAL CLERKS ANE SURGICAL DRESSERS.

Clinical clerks and surgical dressers are appointed to act for limited periods. They are required to take complete histories of cases allotted to them, and to receive certificates for the same, as required by the Ontario Medical Council. Post-mortem clerks are appointed, and are required to make complete reports of all autopsies made in the post-mortem room, which is situated in the hospital grounds. Clinical clerks and surgical dressers are also appointed in the departments of gynæcology, and ophthalmology, and otology.

RESIDENT ASSISTANTS IN THE HOSPITAL.

Four resident assistants are appointed annually from the graduates of medicine in the University, and hold their positions for the year. They will have full opportunities for acquiring experience in the general and special wards of the hospital, but during the sessions they will have charge under the physicians and surgeons in the general wards.

VICTORIA HOSPITAL FOR SICK CHILDREN.

The following members of the Faculty are members of the Hospital staff:—

Consulting.

PROF. U. OGDEN, M.D.
PROF. W. T. AIKINS, M.D.
PROF. H. H. WRIGHT, M.D.
PROF. J. E. GRAHAM, M.D.
PROF. J. THORBURN, M.D.

Physicians.

PROF. A. MCPHEDRAN, M.B.
PROF. J. M. MACCALLUM, M.D.
W. B. THISTLE, M.D.
W. P. CAVEN, M.D.

Surgeons.

PROF. I. H. CAMERON, M.B.
PROF. G. A. PETERS, M.B.
PROF. A. PRIMROSE, M.B.
B. E. MCKENZIE, M.B.

Ophthalmology and Otology.

PROF. R. A. REEVE, M.D.

Rhinology and Laryngology.

G. R. MCDONAGH, M.D.

Pathologist.

PROF. J. CAVEN, M.D.

This large hospital, with 160 beds, is entirely devoted to diseases of children. In the clinics, cases exemplifying the various diseases of infancy and childhood will be exhibited. Abundant opportunities for a personal examination of all cases will be afforded.

ST. MICHAEL'S HOSPITAL.

The following members of the Faculty are members of the staff of St. Michael's Hospital:

PROF. I. H. CAMERON, M.B.
PROF. J. E. GRAHAM, M.D.
PROF. A. MCPHEDRAN, M.B.
PROF. W. OLDRIGHT, M.B.
J. AMYOT, M.B.

Cases of interest in this recently opened Hospital will add to the advantages of students. It contains 80 beds, and during the nine months of its existence about 500 patients have been admitted.

FEES.

Registration (payable once only)	$5 00
The fees for the first year amount to	75 00
" " second year amount to	75 00
" " third year amount to	85 00
" " fourth year amount to	85 00

Students in the Fourth year will be required, in addition, to pay a fee of $5 for the extra-mural class in medical psychology.

Fees connected with examinations and the granting of Degrees :—

For Matriculation or Registration of Matriculation	$ 5 00
For Annual Examination (each)	5 00
For Examination in Practical Chemistry	0 50
For admission *ad eundem statum*	6 00
For the degree of M.B.	20 00
For the degree of M.D.	20 00
For admission *ad eundem gradum*	20 00

Tickets of admission to any of the courses of lectures or practical instruction shall be issued by the Registrar of the University on payment of the fees for such courses, and the attendance of the students at such courses must be certified on the backs of such tickets by the professors, lecturers, demonstrators or instructors, before such tickets shall be received by the Registrar as entitling the possessors to proceed to examination.

All fees shall be payable on or before the first of November of each year, and thereupon the Secretary shall enroll as students of the Faculty all who have paid the prescribed fees.

Matriculated students or graduates in the Faculty of Arts, who have attended during the Arts course any course of lectures or of practical instruction of the character and duration required by the curriculum in medicine, may obtain certified tickets for the same from the Registrar of the University on payment of the ordinary fees demanded for students in medicine.

Students in Arts who are registered as First Year Students in the Faculty of Medicine may be permitted to take a course in anatomy

on payment of a fee o $15. Such students may also be permitted to present themselves for the first professional examination at the end of the session, provided they have duly registered as First Year Students in the Faculty of Medicine, and possess the certificates required for the first examination, as detailed in this Calendar.

Matriculated students or graduates in Arts in the department of Natural Science who have taken honors in any examination in the Faculty of Arts which is or shall be held equivalent by the Senate to any of the examinations prescribed in the medical curriculum, may obtain tickets for the qualifying classes attended by them without the payment of the corresponding fees.

Certificates of attendance on such lectures or demonstrations shall only be given on the presentation of such tickets.

For further particulars apply to James Brebner, B.A., Registrar of the University.

UNDERGRADUATE SCHOLARSHIPS.

The following scholarships are annually offered for competition amongst students who attend the Lectures of the University Medical Faculty:

At First examination	one of $50
"	one of $30
At Second examination.....	one of $50
"	one of $30

Every student taking a scholarship is required to sign a declaration that it is his intention to pursue his medical studies for two or three years, according to the year in which he has taken such scholarship, and to proceed to a degree in the University of Toronto, and that he is not an undergraduate or graduate in the Faculty of Medicine of any other University.

No scholarship will be awarded to any candidate who has not obtained honors in the examination for which it is conferred.

Each scholarship is tenable for one year only, but a scholar of one year is eligible for the scholarship of a succeeding year.

The scholarships or medals are not open to those who are at the same time undergraduates or graduates in Medicine of anothe. University.

No undergraduate in the Honor course, who shall have degraded into a lower year, shall be permitted at any ensuing examination, to compete for medals or scholarships, except by special permission of the Faculty, to be granted only in case of illness or other grave reasons.

MEDALS, PRIZES, AND CERTIFICATES OF HONOR.

A gold medal and three silver medals are offered annually for competition among those students of the Medical Faculty who have succeeded in obtaining the degree of M.B., with Honors, and will be awarded on the recommendation of the Examiners.

REGULATIONS RELATING

TO THE

EXAMINATIONS AND GRANTING OF DEGREES IN MEDICINE.

The Curriculum here published comes into effect for those students only who begin their undergraduate course in 1893 and subsequent years. Students who have commenced their studies as outlined in the old Curriculum (see Calendar, 1892-93) are supposed to complete the undergaduate course according to the regulations of that Curriculum.

DEGREE OF M. B.

The Degree of M. B. is given to candidates who have matriculated and who have attended during four winter sessions of at least six months each and one summer session the courses of instruction as required by this curriculum, and who have passed three examinations taken in the following order : the First at the end of the first session ; the Second, at the end of the second session ; and the Final, at the end of the fourth session.

ENTRANCE.

Candidates for a degree must pass the Matriculation examination, unless (1) they possess a degree in Arts not being an Honorary Degree, from any Dominion or British University ; or (2) have already matriculated in the Faculty of Arts or in the Faculty of Law in this University ; or (3) have been registered as Matriculates in the College of Physicians and Surgeons of Ontario.

Before presenting themselves for examination, candidates must produce satisfactory certificates of good conduct, and of having completed the sixteenth year of their age.

The ordinary Annual Matriculation examinations (both Pass and Honor) will commence in the beginning of July.

Supplemental examinations for Matriculation will be held in the latter part of September, at which those who were rejected at the July examinations, as well as new candidates, may offer themselves; but no honors or scholarships will be awarded at such Supplemental examinations.

The fee for Matriculation is five dollars, and must be paid when the application for the examination is made, according to the regulations issued by the Education Department, under whose superintendence this examination is now conducted. The fee for registration of exemption from the Matriculation examination is five dollars.

Candidates may delay presenting themselves for the Matriculation examination until any time before the Second examination for the degree of M.B.; but no candidate will be allowed to compete for relative standing, prizes, or scholarships, until he has passed the Matriculation examination.

Candidates intending to compete for scholarships at Matriculation are required to notify the Registrar of the University to that effect before May 24th, in addition to the application required to be made as above stated to the Education Department.

No fee will be charged for transferring from the Faculty of Arts to that of Medicine.

For subjects of examination at Junior Matriculation, Pass and Honor, see Appendix.

REGULATIONS RELATING TO UNDERGRADUATES.

Undergraduates are required to attend lectures, and receive practical instruction during each of four years, at any of the schools of Medicine recognized for this purpose by the University.

They are required to present certificates of attendance on the various courses of lectures and practical instruction required for each examination.

The annual examinations are styled the First, Second, and Final examinations, and are to be passed at the end of the First, Second and Fourth academic years respectively.

Undergraduates below the standing of the Fourth year, who have been rejected or who have been prevented from attending the annual examinations by sickness, domestic affliction, or other causes be-

yond their control, may present themselves for examination in September at the Supplemental examinations. Candidates at any examination who have passed in the majority of the subjects required may present themselves at the Supplemental examinations next ensuing, in the subjects in which they failed, and upon passing at such examinations, shall be allowed their year. Candidates who failed to attend at the annual examinations, must prove to the satisfaction of the Senate before presenting themselves in September, the existence and sufficiency of the alleged cause of absence. Candidates who were rejected must pay a fee of ten dollars, and those who did not attend, a fee also of ten dollars, before offering themselves for the Supplemental examination.

Graduates in Arts of the University may enter at the Second examination, but will be required to take such subjects of the First examination as they have not taken in their Arts course, though in these subjects they shall not be required to take an Honor standing. (For list of equivalent examinations, see page 8).

The fee for each examination is five dollars, payable when the candidate notifies the Registrar of his intention to present himself.

Notice will be given annually, in January, of the days on which the examinations for the year will commence. Every undergraduate who proposes to present himself at an examination must send in to the Registrar a statement (according to a printed form which will be furnished) of the course he is taking, whether he intends to compete for Honors, and such other particulars as the printed form may indicate, together with the original certificates referred to in this statement.

Certificates are required for the different examinations as follows:

First examination—

Of having attended:

In Anatomy, a course of at least 50 lectures.
" Physiology, a course of at least 50 lectures and demonstrations.
" Inorganic Chemistry, a course of at least 50 lectures.
" Physics, a course of at least 25 lectures and demonstrations.
" Biology, " " 40 "
" Practical Chemistry, a course of at least 50 hours.
" " Biology, " " " 50 "
" " Anatomy, a course of instruction during six months

Second examination—

Of having attended:

In Anatomy, a course of at least 50 lectures.

" Physiology, a course of at least 50 lectures and 50 demonstrations.

" Organic Chemistry, a course of at least 50 lectures.

" Materia Medica and Elementary Therapeutics, a course of at least 50 lectures.

" Embryology and Histology, a course of laboratory instruction of at least 50 hours.

" Practical Chemistry, a course of laboratory instruction of at least 50 hours.

" Practical Anatomy, a second course of instruction during six months.

" Practical Pharmacy, a course of instruction during three months.

Final examination—

Of having attended:

In Medicine,	two courses,	each of at least	50	lectures.
" Clinical Medicine,	"	"	50	"
" Surgery,	"	"	50	"
" Clinical Surgery,	"	"	50	"
" Pathology,	"	"	50	"

" Practical Pathology, two courses of instruction each of at least 50 hours.

" Obstetrics, physiological, a course of at least 50 lectures.

" Obstetrics, pathological, " " 30 "

" Gynæcology, a course of at least 50 lectures.

" Medical Jurisprudence and Toxicology, a course of at least 50 lectures.

" Topographical Anatomy, a course of instruction of at least 50 hours.

" Materia Medica and Therapeutics, a second course of at least 50 lectures.

" Hygiene, a course of at least 25 lectures.

" Medical Psychology, a course of at least 12 lectures.

2. Of having conducted at least six labors.

3. Of proficiency in vaccination.

(NOTE.—In respect to 2 and 3, certificates will be received from any registered practitioner.)

4. Of attendance for eighteen months in the wards of a public hospital having not less than 100 beds.

5. Of attendance for twelve months on the out-practice of a hospital, or dispensary, or with a registered practitioner.

6. Of having attended one summer session.

7. Of having attended twelve autopsies.

SUBJECTS OF THE DIFFERENT EXAMINATIONS.

FIRST EXAMINATION.

1. Physics.
2. Chemistry (Inorganic).
3. Biology.

SECOND EXAMINATION.

1. Anatomy.
2. Physiology.
3. Embryology and Histology.
4. Materia Medica and Elementary Therapeutics.
5. Chemistry (Organic and Physiological).

FINAL EXAMINATION.

1. Medicine and Clinical Medicine.
2. Surgery and Clinical Surgery.
3. Obstetrics.
4. Pathology.
5. Therapeutics.
6. Gynæcology.
7. Medical Jurisprudence and Toxicology.
8. Hygiene.
9. Medical Psychology.
10. Topographical Anatomy.

EXAMINATIONS FOR HONORS.

Candidates taking seventy-five per cent. of the aggregate number of marks in the Pass and Honor papers of the First or Second examination, or of one or more of the groups of subjects in the Final examination will be placed in the Honor list.

Additional papers on all Pass subjects of an examination will be set for the Honor candidates.

The subjects of the Final examination are grouped for Honors as follows :

Group	I.	1. Medicine and Clinical Medicine.
		2. Pathology.
		3. Therapeutics.
"	II.	1. Surgery and Clinical Surgery.
		2. Pathology.
		3. Topographical Anatomy.
"	III.	1. Obstetrics.
		2. Gynæcology.
		3. Pathology.
"	IV.	1. Medical Jurisprudence and Toxicology.
		2. Hygiene.
		3. Medical Psychology.

Only those candidates will receive their Degree with Honors who have obtained Honors in the First, Second, and Final examinations.

EQUIVALENT EXAMINATIONS.

Courses of lectures and examinations in the Faculty of Arts, in the department of Natural Sciences, are accepted in the place of courses of lectures and examinations in the Faculty of Medicine according to the following scheme :—

FACULTY OF ARTS.		FACULTY OF MEDICINE.
1. Honor course and examination in Second Year Biology.	equivalent to	course and examination in First Year Biology, and course in First Year Physiology.
2. Honor course and examination in Second Year Chemistry, and Physics of the Honor course in Natural Sciences.	equivalent to	course and examination in First Year Inorganic Chemistry and Physics.
3. Honor course and examination in Third Year Chemistry.	equivalent to	course and examination in Second Year Chemistry (with the exception of Chemistry applied to Physiology).
4. Honor course and examination in Fourth Year Biology.	equivalent to	course and examination in Second Year Physiology and Embryology and Histology.

5. Attendance at the Honor course in the Fourth Year Physiological Chemistry, in the Faculty of Arts, is equivalent to attendance at the course of Chemistry applied to Physiology of the Second Year in the Faculty of Medicine.

N. B.—Candidates who desire to compete for scholarships and medals are required to submit to the annual examinations in all the subjects of each examination, though otherwise entitled to partial exemption according to the preceding scheme ; and candidates not competing for scholarships or medals, who are entitled to exemption according to the preceding scheme, will hold the same rank in Honors in these subjects as they obtained in the equivalent examinations in Arts.

Students of the Fourth Year Natural Science course in Arts who propose to offer themselves for the Second examination in Medicine may defer the examination in Materia Medica to the Final examination.

DEGREE OF M.D.

Bachelors of Medicine of at least one year's standing, may obtain the degree of M.D. on the fulfilment of either of the following conditions :—

1. Having composed a thesis of approved merit on some scientific subject in the Department of Medicine.

2. Having passed an examination in Clinical Medicine and Surgery,* together with an examination in the History of Medicine.

ADMISSION "AD EUNDEM STATUM."

Undergraduates of other Universities applying for admission *ad eundem statum* must present certificates of having passed the examinations in the various subjects of this curriculum preliminary to the examination for which they desire to present themselves.

ADMISSION "AD EUNDEM GRADUM."

A graduate of any of the Universities in Great Britain or Ireland, if his degree be not an honorary one, may be admitted to the like degree in the University of Toronto. He must send in his certificate to the Registrar at least two weeks before the first meeting of the session of the Senate at which his application is to be brought forward.

FEES FOR DEGREES.

For the degree of M.B ..... Twenty dollars.
For the degree of M.D ..... Twenty dollars.
For admission *ad eundem gradum* ..... Twenty dollars.

* The examination in these subjects is additional to that required for the degree of M.B.

THE GEORGE BROWN MEMORIAL SCHOLARSHIP IN MEDICAL SCIENCE.

Dr. A. H. F. Barbour, of Edinburgh, having placed a sum of money at the disposal of the University of Toronto, for the purpose of founding a Scholarship in Medical Science in memory of the late Hon. George Brown, the following regulations have been adopted with regard thereto :—

This scholarship shall be called the George Brown Memorial Scholarship in Medical Science, and shall be awarded annually at the convocation for conferring degrees in medicine to the Bachelor of Medicine who shall have distinguished himself most during his undergraduate course in the subjects of Anatomy, Biology, Physiology and Pathology.

The comparative value of the several subjects is to be estimated according to the following schedule :—

1st year	—Biology	200
2nd year	—Anatomy	300
	Physiology	300
	Embryology and Histology	100
4th year	—Pathology	300
	Total	1200

The award shall be made by a committee composed of the Professors in these subjects, and of the Examiners for the time being therein, who shall report as to the successful candidates, after having given due attention to the results of the Annual examinations, and to the character of the work done by the candidates in the University laboratories.

The holder of the scholarship during the year of tenure is required to engage in original research in any one of the laboratories of the University, on some subject bearing on the advancement of medical science—the laboratory providing the material for the investigation.

The scholarship is to be paid in two portions, two-thirds at the time of award and one-third six months later, on the holder giving a satisfactory report (to whomsoever the University may appoint) of the work he has already done.

A report of the research, when completed, is to be given to the University.

The value of the scholarship consists in the proceeds of one thousand pounds sterling, invested at the rate of interest secured by the University for such benefactions.

The scholarship is tenable for one year.

THE STARR MEDALS.

The late Richard Noble Starr, M.D., devised certain property for the encouragement of post-graduate study in Anatomy, Physiology and Pathology, and in fulfilment of this object one gold and two silver medals, called the "Starr Medals," are awarded annually to three candidates for the degree of M.D. who have shown by the theses which they have presented for that degree that they have successfully pursued such study in any one of these subjects. The theses for which these medals are given must attain a standard approved of by the Board of Examiners, and the relative value of the theses will determine the rank of the candidates for the medals.

The object of the society is to encourage discussion among the students on subjects of medical interest. The society meets every alternate Friday evening throughout the session. A reading-room and reference library are provided for the use of members.

FEDERATED AND AFFILIATED COLLEGES.

Royal College of Dental Surgeons of Ontario.

This institution was incorporated in 1868 with power to examine and issue license to practise as a dentist in the province. In connection with the College a School of Dentistry was established in 1875 for the instruction of students in their professional work.

THE FACULTY.

J. BRANSTON WILLMOTT, D.D.S., M.D.S., Secretary of the Royal College of Dental Surgeons.
Professor of Operative Dentistry and Dental Pathology, Materia Medica and Therapeutics.

LUKE TESKEY, M.D., C.M.,
Professor of Principles and Practice of Medicine and Surgery as applied in Dentistry.

W. T. STUART, M.D.C.M.,
Professor of Regional Anatomy.

DR. J. BRANSTON WILLMOTT,
Professor of Prosthetic Dentistry.

DR. LUKE TESKEY,
Professor of Visceral Anatomy, Physiology and Dental Histology.

DR. W. T. STUART,
Professor of Chemistry.

W. EARL WILLMOTT, D.D.S.,
Lecturer on Materia Medica and Therapeutics.

DR. W. EARL WILLMOTT,
Demonstrator and Teacher of Practical Dentistry.

REGISTRAR OF THE FACULTY.

L. TESKEY, M.D.C.M., 201 Church Street, Toronto.

DEAN OF THE FACULTY.

J. BRANSTON WILLMOTT, D.D.S., 41 Shuter Street, Toronto.

Lecture Rooms and Infirmary, 13 Louisa Street, Toronto.

The Royal College of Dental Surgeons was affiliated with the University of Toronto in 1888, and shortly thereafter an examination for the degree of Doctor of Dental Surgery was instituted in the University, and the following curriculum of requirements for admission to such degree instituted.

CURRICULUM IN DENTISTRY.

MATRICULATION.

Candidates for the degree of D.D.S. must pass the Matriculation examination hereinafter mentioned, unless they,

1st. Possess a degree in Arts (not being an Honorary degree), from some recognized University; or

2nd. Have already matriculated in the Faculty of Arts, or the Faculty of Law, or the Faculty of Medicine in this or some other University in Canada; or

3rd. Are matriculants in the College of Physicians and Surgeons of Ontario; or

4th. Have passed the 1st, 2nd or 3rd class Departmental Non-professional examinations in which the Latin option has been taken.

Candidates not possessing any of the above named qualifications, will be required to pass the examination prescribed for matriculants in the Faculty of Medicine in this University, provided always that candidates registered as matriculants of the Royal College of Dental Surgeons of Ontario, on the first day of November, A.D. 1888, shall be admitted as matriculants in the Department of Dentistry.

UNDERGRADUATES.

Undergraduates (candidates for the degree) residents of the Province of Ontario, must have complied with all the requirements, prescribed from time to time by the Board of Directors of the Royal College of Dental Surgeons of Ontario for admission to examination for a certificate of license to practise Dentistry in Ontario.

Undergraduates (candidates for the degree), not resident in Ontario, must :—

(1) Have devoted at least three full calendar years (not being engaged in any other business) to the study of Dentistry.

(2) Must have attended at least two full courses of lectures, embracing all the subjects of the curriculum, of not less than five months each (exclusive of the time occupied in examination), and including the daily clinic at a dental school recognized by this University ; the last of which must be at the School of Dentistry of the Royal College of Dental Surgeons of Ontario.

(3) Must have spent that portion of time, when not in attendance at lectures and clinics at the School of Dentistry, as students in the office of an approved dentist.

EXAMINATIONS.

Candidates for the degree must pass two examinations : an intermediate and a final ; an interval of not less than one year intervening between them. Until further provision be made a certificate of having passed the intermediate examination of the Royal College of Dental Surgeons of Ontario, will be accepted by this University.

Applications for the final examination, which will be held at the same time as the annual examinations in the Faculty of Medicine, must present to the Registrar satisfactory certificates, covering all the requirements relating to undergraduates as given above, and of having passed the intermediate examination.

The subjects for final examination shall be

(*a*) Theory and Practice of Operative Dentistry.

(*b*) Theory and Practice of Dental Prosthetics.

(These examinations will be partly written, partly oral, and partly practical.)

(*c*) Dental Pathology.

(*d*) Dental Histology.

(*e*) Principles and Practices of Medicine and Surgery as applied in Dentistry.

(*f*) Dental Materia Medica and Therapeutics.

(*g*) General Anatomy and special Anatomy of head and neck.

(*h*) Physiology.

(*k*) Chemistry.

(These examinations will be written.)

No candidate shall be considered as having passed the examination who has not obtained 50 per cent. of the marks allotted; nor shall a candidate be considered as having passed in any subject who has not obtained at least 33⅓ per cent. of the marks allotted to such subject.

ADMISSION "AD EUNDEM GRADUM."

A graduate of another institution of recognized standing (provided his degree be not an honorary one) may be admitted to the same degree in the University of Toronto.

FEES.

The fee for matriculation examination shall be five dollars.

The fee for registration of a certificate accepted in lieu of said examination shall be five dollars.

The fee for final examination shall be five dollars.

The fee for the degree of D.D.S. shall be twenty dollars.

No fee shall be charged for transference from any Faculty of this University to the Department of Dentistry.

The fee for admission *ad eundem gradum* shall be twenty dollars.

Ontario College of Pharmacy.

The Council of the College of Pharmacy, the bi-ennially elected governing body of the practising pharmacists of the Province of Ontario, began in 1882 to give instruction in the various subjects necessary for license for druggists. The College building, situated on St. James' Square, was erected in 1886, and the Faculty reorganized and extensive additions made to the buildings in 1891. In the same year affiliation was entered into with the University of Toronto.

For details as to laboratory and other courses, preliminary qualifications, etc., see Annual Calendar of the College.

THE FACULTY.

CHARLES F. HEEBNER, Ph. G., Phm. B., Toronto.
Dean, Professor of Pharmacy, Director of Pharmacal Laboratory.

A. Y. SCOTT, B.A. (Tor.), M.D., C.M. (Trin.)
Professor of Theoretical Chemistry and Botany.

GRAHAM CHAMBERS, B.A., M.B. (Tor.)
Professor of Analytical Chemistry and Toxicology, Director of Chemical Laboratory.

J. T. FOTHERINGHAM, B.A., M.B. (Tor.), M.D., C.M. (Trin.)
Professor of Materia Medica and Pharmacognosy.

CURRICULUM IN PHARMACY.

DEGREE OF PHM. B.

There shall be a degree in Pharmacy offered in this University. The degree—Bachelor of Pharmacy (Phm. B.)—shall be granted to all who have conformed to the regulations hereinafter given.

MATRICULATION.

Candidates for the degree of Bachelor of Pharmacy must either :—

(1) Possess a degree in Arts (not an Honorary degree) from some recognized University, or

(2) Have already matriculated in the Faculty of Arts or the Faculty of Law, or the Faculty of Medicine in this or some other University in Canada, or

(3) Be matriculants in the College of Physicians and Surgeons of Ontario, or

(4) Have passed the 1st, 2nd or 3rd class Departmental Non-professional examination in which the Latin option has been taken.

Provided always that all candidates registered as apprentices of the Ontario College of Pharmacy, or who have received the diploma of the College of Pharmacy up to the first day June, A.D. 1893, shall be admitted as matriculants in the Department of Pharmacy on payment of the registration fee of five dollars.

REGULATIONS FOR THE DEGREE OF PHM. B.

Undergraduates (candidates for the degree), residents of the Province of Ontario must have complied with all the requirements prescribed from time to time by the Council of the Ontario College of Pharmacy for admission to examination for a diploma licensing to practise Pharmacy in Ontario, and must have received from the Registrar of the Ontario College of Pharmacy a certificate of having passed the Final examination of that College.

Candidates for the degree, not resident in Ontario, must have devoted at least four years (not being engaged in any other business) to the study of Pharmacy, being apprenticed during that time to a regularly qualified Pharmaceutical Chemist ; must have attended the full courses of lectures, embracing all the subjects of the curriculum, the length of each course being not less than that required from time to time by the Council of the Ontario College of Pharmacy and including practical work at some College of Pharmacy recognized by this University ; the last of which courses must be at the Ontario College of Pharmacy.

All candidates who have, prior to August 15th, 1892, received the diploma of the Ontario College of Pharmacy shall not be required to conform to the above, but shall be allowed their degree on passing the examination on the subjects hereinafter given.

EXAMINATIONS.

Candidates for the degree must pass an examination to be held in the month of May of each year—hour and date of commencing to be hereafter given—must present to the Registrar satisfactory certificates covering all the requirements relating to undergraduates as given above, and of having passed the Final examination of the Ontario College of Pharmacy.

The subjects of the examination shall be as follows :—

1. Botany and Microscopy.
2. Theory and Practice of Chemistry and Toxicology.
3. Materia Medica, including Posology and Pharmacognosy.
4. Theory and Practice of Pharmacy, including Interpretation of Prescriptions and Dispensing.

These examinations shall be partly written, partly oral and partly practical.

No candidate shall be considered as having passed the examination who has not obtained fifty per cent. of the marks allotted ; nor shall a candidate be considered as having passed in any subject who has not obtained at least forty per cent. of the marks allotted to such subject.

FEES.

For matriculation or registration of matriculation	$5 00
For annual examination (each)	5 00
For each practical examination	0 50
For the degree Phm. B.	10 00

Woman's Medical College, Toronto.

The Woman's Medical College was established in 1883. Instruction is given in all subjects required by the College of Physicians and Surgeons of Ontario for admission to a license to practise, and also in all subjects required by the University of Toronto for Examinations in the Faculty of Medicine. The Woman's Medical College was affiliated with the University of Toronto in 1890.

The building, recently erected, is situated on Sumach street, between Gerrard and Spruce streets.

For further particulars as to instructions, summer course, etc., *vide* the Annual Announcement of the College.

PROFESSORS.

R. B. NEVITT, B.A., M.D.,
Dean of Faculty, Professor of Clinical Surgery.

J. T. DUNCAN, M.D., C.M.,
Professor of Anatomy.

A. R. PYNE, M.B.,
Professor of Chemistry.

A. STOWE GULLEN, M.D., C.M.,
Professor of Diseases of Children.

JAS. F. W. ROSS, M.D., C.M.,
Professor of Gynæcology.

D. J. GIBB WISHART, B.A., M.D., C.M.,
Secretary of the Faculty, Professor of Ophthalmology, Otology, Rhinology, and Laryngology.

T. F. McMahon, M.D., C.M.,
Professor of Principles and Practice of Medicine, and Lecturer in Clinical Medicine.

G. B. Smith, M.D., C.M.,
Professor of Materia Medica and Pharmacy.

J. MacCallum, B.A., M.D., C.M.,
Professor of Physical Diagnosis, Lecturer, Demonstrator, etc.

H. T. Machell, M.B.,
Professor of Obstetrics.

N. A. Powell, M.D., C.M.,
Lecturer on the Practice of Surgery.

W. B. Thistle, M.D.,
Clinical Lecturer on the Diseases of Children.

G. S. Cleland, M.B.,
Lecturer on Anatomy.

A. B. Atherton, M.B.,
Lecturer on the Principles of Surgery.

B. E. McKenzie, B.A., M.D., C.M.,
Lecturer on Medical, Surgical and Topographical Anatomy, Demonstrator of Anatomy, Lecturer on Orthopædics.

R. Shawe Tyrrell, M.B.,
Lecturer on Medical Jurisprudence.

L. M. Sweetnam, M.D., C.M.,
Lecturer on Therapeutics.

A. A. Macdonald, M.D.,
Lecturer on Clinical Medicine.

Susanna P. Boyle, M.D., C.M.,
Lecturer in Histology, Demonstrator of Microscopy, Normal and Pathologcical.

Graham Chambers, B.A., M.B.,
Lecturer on Organic Chemistry and Toxicology.

Lelia A. Davis, M.B.,
Assistant Demonstrator in Anatomy.

E. B. Shuttleworth,
Lecturer on Inorganic Chemistry and Bacteriology.

F. W. Cane, M.B.,
Lecturer on Mental Diseases.

G. GORDON, B.A., M.D., C. M.,
Lecturer on Sanitary Science.

JENNIE GRAY, M.D., C.M,,
Assistant Demonstrator in Anatomy.

R. J. DWYER, M.B.,
Lecturer in Pathology.

A. B. EADIE, M.D., C.M.,
Lecturer in Physiology.

E. M. CURZON, B.A.,
Lecturer in Biology.

Trinity Medical College.

This Medical College was organized in 1850, and at first formed the Medical Faculty of the University of Trinity College. In 1856 it ceased to be a Faculty of that University. It has been in affiliation with the University of Toronto since 1877. Its curriculum embraces all the subjects required by the College of Physicians and Surgeons of Ontario.

THE FACULTY.

Professors.

WALTER B. GEIKIE, M.D., C.M., D.C.L., Dean of the Faculty,
Professor of Principles and Practice of Medicine.

J. ALGERNON TEMPLE, M.D., C.M.,
Professor of Obstetrics, Gynæcology, and Diseases of Children.

THOMAS KIRKLAND, M.A.,
Professor of General Chemistry and Botany.

C. W. COVERNTON, M.D., C.M.,
Emeritus Professor of Medical Jurisprudence and Toxicology.

FRED LEM. GRASETT, M.B., C.M.,
Professor of Principles and Practice of Surgery, and of Clinical Surgery.

W. T. STUART, M.D., C.M.,
Professor of Practical and Analytical Chemistry.

CHARLES SHEARD, M.D., C.M.,
Professor of Physiology and Histology, and Lecturer on Clinical Medicine.

G. STERLING RYERSON, M.D., C.M.,
Professor of Opthalmology, Otology, Laryngology, etc.

LUKE TESKEY, M.D., C.M.,
Descriptive Anatomy and Lecturer on Clinical Surgery.

JOHN L. DAVISON, B.A., M.D., C.M.
Professor of Materia Medica and Therapeutics, Theory and Art of Prescribing, etc., and Lecturer on Clinical Medicine.

G. A. BINGHAM, M.D., C.M.,
Professor of Applied Anatomy.

Lecturers, Demonstrators, Instructors and Assistants.

NEWTON ALBERT POWELL, M.D., C.M.,
Lecturer on Medical Jurisprudence and Surgical Appliances.

E. A. SPILSBURY, M.D., C.M.,
Lecturer on Rhinology and Laryngology.

ALLAN BAINES, M.D., C.M.,
Lecturer on Diseases of Children.

D. GILBERT GORDON, B.A., M.D., C.M.,
Lecturer on Sanitary Science, and in charge of Practical Microscopical Laboratory Work in Toronto General Hospital.

E. B. SHUTTLEWORTH, ESQ.,
Practical Pharmacy, etc.

A. Y. SCOTT, B.A., M.D., C.M.,
Zoology, etc.

D. J. GIBB WISHART, B.A., M.D., C.M.,
Instructor in the Appliances used in Diseases of the Eye, Ear, Nose, and Throat.

C. TROW, M.D., C.M.,
Clinical Lecturer on Diseases of Eye and Ear.

D. J. GIBB WISHART, B.A., M.D., C.M.,
Senior Demonstrator of Anatomy.

J. T. FOTHERINGHAM, B.A., M.D., C.M.,
Second Demonstrator of Anatomy.

F. C. COWAN, M.D., C.M.,
P. J. STRATHY, M.D., C.M.,
H. B. ANDERSON, M.D., C.M.,
C. H. ROSE, M.D., C.M.,
Assistants in Anatomy.

St. Michael's College.

St. Michael's College was established in 1852 by the Basilian Fathers from Annonay, France, at the request and under the patronage of the Most Rev. Dr. De Charbonnel, then Bishop of Toronto. For four years the College occupied the wing of St. Michael's Palace, on Church Street. In 1856, a more suitable edifice was erected on the present site, part of which was the gift of the late Hon. John Elmsley. Since that time the building has been more than doubled, and the chapel enlarged and improved.

The object of the institution is to impart a thorough Catholic training, moral and intellectual, so as to fit young men for any position in life which they may wish to occupy.

The studies advancing steadily with the educational progress of the country, it was deemed advantageous for those studying for the liberal professions to have the College affiliated with the Provincial University. In 1881 this affiliation was affected upon a basis similar to that of several of the Catholic Colleges of England and Ireland with the University of London.

The course of study comprises, besides an Elementary department three others, viz., Commercial, Classical and Philosophical. In the latter department lectures are delivered in the subjects of the department of Philosophy as prescribed by the curriculum of the University of Toronto.

Special lectures are also delivered upon the History required in the curriculum of the University.

THE FACULTY.

REV. J. R. TEEFY, B.A., C.S.B.,
Superior, Professor of Mental Science.

REV. R. MCBRADY, C.S.B.,
Director of Studies.

REV. J. J. GUINANE, C.S.B.,
Treasurer and Professor of Natural Philosophy.

REV. J. J. GUINANE, C.S.B.,
Professor of Natural Philosophy.

W. D. HEENAN, ESQ.,
Professor of Rhetoric.

REV. A. P. DUMOUCHEL, C.S.B.,
Professor of Belles Lettres.

REV. A. MARTIN, C.S.B.,
Professor of Mathematics.

Knox College.

Knox College was established at Toronto in 1844, as a theological seminary in connection with the Synod of the Presbyterian Church in Canada or Free Church which had been organized in the same year. In 1858 it was incorporated by Act of Parliament. In 1861, in consequence of the Union of the Synod of the Free Church and that of the United Presbyterian Church, as the Synod of the Canada Presbyterian Church, the Theological Institute of the United Presbyterian Synod and Knox College were united.

After many changes of habitation the present buildings on Spadina Avenue were erected in 1875. It was affiliated with the University of Toronto in 1885, and upon the passage of the University Federation Act, became in accordance with the views of that Act, a federating College, with additional representation on the Senate, and in the University and University College its students receive instruction in the subjects of an Arts course prescribed for them as preliminary to the study of Theology. The majority of its students proceed to graduation in Arts: others take a more limited course, embracing English, History, Logic and Rhetoric, Chemistry, Mental and Moral Philosophy, and Hebrew. The course in Theology extends over three years. A number of scholarships and prizes are offered for competition in each year.

THE FACULTY.

REV. WILLIAM CAVEN, D.D. (Principal),
Professor of Exegetics and Biblical Criticism.

REV. WILLIAM GREGG, D.D.
Professor of Church History.

REV. WILLIAM McLAREN, D.D.,
Professor of Systematic Theology.

REV. R. Y. THOMSON, M.A., B.D.,
Professor of Apologetics and Old Testament Literature.

REV. J. J. A. PROUDFOOT, D.D.,
Lecturer in Homiletics, Church Government, and Pastoral Theology.

A. C. MOUNTEER, B.E.,
Teacher of Elocution.

GEORGE LOGIE, B.A.,
Tutor in Latin, Greek and English.

Wycliffe College.

This federating College was founded 1877, and known at first as the Protestant Episcopal Divinity School. As that name implies, it is a Church of England Theological College, and its work and methods are based upon the position of "distinctive evangelical teaching." It was affiliated with the University in 1885; and upon the passage of the University Federation Act became, in accordance with the terms of that Act, a federating College, with additional representation on the Senate. The present building, completed in 1891, stands to the north-east of the main University building.

Professor: REV. F. G. MITCHELL, M.A.

HOMILETICS AND PASTORAL THEOLOGY.

Professor: REV. FREDERICK H. DUVERNET.

ELOCUTION.

Instructor: Mr. H. N. SHAW, B.A.

The Theological course proper extends over a period of three years; the preparatory work consisting of the First year's work in Arts of the University, or its equivalent.

The first two years of the Theological course may be taken concurrently with the Arts work of the University by means of the Theological options, and by following the schedule laid down in the Calendar.

Graduates in Arts may so combine the three years' work as to take the full Theological course in two years.

For further particulars, *vide* Calendar of the College.

The School of Practical Science.

The School of Practical Science was founded by Act of the Legislative Assembly in 1877. An arrangement was entered into with the Council of University College whereby the students of the School received instruction in those University subjects which were included in the work of the School. In 1889, the School was affiliated to the University of Toronto. In 1890, very large additions were made to the original building. The latter was set apart for the work in Chemistry, Mineralogy and Assaying, while the Engineering and Architectural Departments were accommodated in the new building, a large portion of which is occupied by the Engineering Laboratory. This laboratory has been equipped with the most modern machinery and apparatus for carrying on original investigations in steam engineering, hydraulic and electrical engineering, strength of materials of construction, standards of length, etc.

The Department of Chemistry is provided with laboratories for qualitative and quantitative analysis, toxicology, etc.

In the Department of Mining Engineering there are laboratories for assaying, blowpipe analysis, microscopic lithology, etc. For instruction in Surveying and Practical Astronomy the School is supplied with a good collection of the ordinary field instruments—transits, levels, etc.—and also with a ten-inch theodolite for astronomical and geodetic work.

The Departments of instruction are:—

1. Civil Engineering, including Sanitary Engineering.
2. Mechanical and Electrical Engineering.
3. Mining Engineering.

4. Architecture.

5. Analytical and Applied Chemistry.

The instruction given in each of these departments is designed to give the students a thorough knowledge of the scientific principles underlying the practice in the several professions, and also to give them such a training as will make them immediately useful when they enter into active professional work.

THE FACULTY.

J. GALBRAITH, M.A., M. Can. Soc. C. E.,
Professor of Engineering (Principal).

W. H. ELLIS, M.A., M.B.,
Professor of Applied Chemistry.

A. P. COLEMAN, M.A., Ph.D.,
Professor of Assaying and Metallurgy.

L. B. STEWART, P.L.S., D.T.S.,
Lecturer in Surveying (Secretary).

C. H. C. WRIGHT, B.A.Sc.,
Lecturer in Architecture.

T. R. ROSEBRUGH, M.A., Grad. S.P.S.,
Lecturer in Electrical Engineering.

J. A. DUFF, B.A., Grad. S.P.S.,
Fellow in Civil Engineering.

E. B. MERRILL, B.A., Grad. S.P.S.,
Fellow in Mechanical Engineering.

A. LAW, Grad. S.P.S.,
Fellow in Surveying.

R. W. ROSS, M.A.,
Fellow in Analytical and Applied Chemistry.

N. E. BOUSTEAD, Grad. S.P.S., B.A.Sc.,
Fellow in Metallurgy and Assaying.

Graduates of the school in Civil Engineering may proceed to the degree of C.E. in the University of Toronto.

Graduates of the school in any department may proceed to the degree of B.A.Sc. in the University of Toronto.

For further information see the Calendar of the school, which may be had on application to the Secretary.

DEGREE OF C.E.

By a Statute of the University of Toronto, passed in 1884, graduates of the School of Practical Science in the department of Civil Engineering may be admitted to the degree of C. E. upon the following conditions :—

1. Candidates for the said degree shall hold the Diploma in Civil Engineering of the Ontario School of Practical Science.
2. Candidates shall have spent three years after receiving the said Diploma in the actual practice of the profession of Civil Engineering.
3. Candidates shall have spent at least two years of the said period in the construction and operation of engineering works as distinguished from surveys merely.
4. Satisfactory evidence shall be offered as to the periods spent on the different classes of engineering employment, and intervals during which the candidate was not engaged in the construction or operation of engineering works, or in the prosecution of surveys, shall not be included as portions of the aforesaid period of three years.
5. It shall not be necessary that the several intervals required to make up the period of three years be consecutive.
6. Each candidate shall prepare for the approval of the Senate, an original essay on some engineering subject, accompanied with detailed explanations, drawings, specifications and estimates ; he shall also be examined on the subject of the essay, as well as on the work or works on which he has been engaged, unless exempted therefrom on the special recommendation of the examiner.
7. The subject of the said essay shall be forwarded to the Registrar for the approval of the Senate not later than the first day of February.

8. Candidates shall notify the Registrar of their intention of proceeding to the degree of C. E., not later than the first day of April.
9. The evidence required in section 4, together with the essay, drawings, and estimates, shall be sent to the Registrar not latter than the first day of May.
10. The examination of the essay, drawings and estimates and any further examination of the candidate that may be considered necessary, may be held in May.
11. The fee for the degree of C.E. shall be $20, and shall be paid to the Registrar not later than the first day of May.
12. The essay, drawings and estimates submitted by the candidate shall be the property of the University.

DEGREE OF B.A.Sc.

Candidates who have fulfilled the requirements of the Fourth year in the School of Practical Science are eligible for the degree of Bachelor of Applied Science in the University of Toronto, in accordance with the following statute passed by the Senate in 1892.

BY THE SENATE OF THE UNIVERSITY OF TORONTO.

Be it enacted:

That the degree of Bachelor of Applied Science (B.A.Sc.) be hereby established to be granted subject to the following conditions and regulations :—

1. Candidates for the said degree shall hold the diploma of the School of Practical Science in any one of the regular courses of the said school, or shall be of the standing of the Fourth year in the honor department of Chemistry and Mineralogy in the University of Toronto.
2. They shall have fulfilled the conditions relating to the Fourth or post-graduate year in the School of Practical Science, and shall present certificates of having done so to the Registrar of the University.
3. Each candidate shall prepare a thesis based on the results of his Fourth year work in the said School of Practical Science for the approval of the University examiners. This thesis is to be accompanied by all necessary drawings, specifications, tables and estimates.

4. Candidates will be required to select two sub-divisions in any one of the following groups, and to pass such written and oral examinations on the subjects selected as may be prescribed by the University examiners.

A. { Astronomy.
Geodesy and Metrology.

B. { Architecture.
Strength and Elasticity of Materials.
Hydraulics.
Therodynamics and Theory of Heat Engines.
Electricity and Magnetism.

C. { Industrial Chemistry.
Sanitary and Foresenic Chemistry.
Inorganic and Organic Chemistry.

D. { Mineralogy and Geology.
Metallurgy and Assaying.

The sub-division "Inorganic and Organic Chemistry" will be obigatory on all candidates who select group C.

5. Candidates are required to send to the Registrar of the University at least three weeks before the commencement of the annual examination an application for examination according to a printed form to be obtained from the Registrar, and such application must be accompanied by a fee of five dollars.
6. The examination for the degree shall be held in May.
7. The fee for the degree shall be ten dollars and shall be paid to the Registrar not later than the first day of May.
8. The ordinary time for conferring the degree shall be at the University commencement in June. The degree may be conferred at any meeting of the Senate.
9. The thesis, drawings, and other papers accompanying them, shall be the property of the University.
10. In case any change be made in the conditions referred to in the second clause, such change shall be submitted to the Senate and shall have no force so far as the said clause is concerned, unless approved by resolution of the Senate.

Ontario Agricultural College.

The Institution known as the "Ontario Agricultural College and Experimental Farm," is situated about a mile to the south of the city of Guelph, in the centre of an extensive agricultural and noted stock-raising district, readily accessible by rail from all parts of the province. The farm consists of 550 acres, about 400 of which are cleared. It is composed of almost every variety of soil, and hence is well suited for the purpose for which it was selected.

The instruction given at the institution is embraced under two heads, a course of study and a course of apprenticeship. The latter is required of all First and Second year students in the autumn, winter, and spring terms, during which they are employed in rotation in each of six departments of practical farm labour. The regular course of study is for two years, at the end of which time an Associate Diploma is granted by the College.

Holders of the Associate Diploma who obtain a certain standing in the theoretical and practical work of the first two years may remain for a third year. In 1888 the College was affiliated with the University of Toronto, and an examination for the degree of Bachelor of the Science of Agriculture was instituted, to which only students of the Third year in the Ontario Agricultural College may be admitted.

THE FACULTY.

JAMES MILLS, M.A., LL.D., President.
Professor of English Literature and Political Economy.

THOMAS SHAW.
Professor of Agriculture and Arboriculture.

In lieu of the above a certificate of having passed the Primary or any subsequent examination in a high school, or of Matriculation in Arts in any University in Her Majesty's Dominions, will be accepted, and the Senate may, in the case of musicians of established reputation who apply for standing in the Faculty of Music, dispense with the Matriculation examination.

COURSE IN MUSIC.

Before being admitted to any of the following examinations, all candidates shall be required to give evidence of a sound practical knowledge of pianoforte or organ playing.

FIRST YEAR'S EXAMINATION.

Harmony.—Knowledge of chord formation and progression, harmonization of melodies and figured basses. Musical history with special references to the early use of musical instruments, the development of Gregorian and Ambrosian chants, and the introduction of harmony and part writing.

Text Books: Stainer's Primer of Harmony, Jadassohn's Harmony; Banister's Text Book of Music; Bonavia Hunt, Naumann; Histories of Music.

SECOND YEAR'S EXAMINATION.

ELEMENTARY ACOUSTICS :

HARMONY.—The harmonization of melodies or chorales in four, five and six part harmony, the Cantus Fermus to be given alternately to the different parts. Counterpoint, simple and double up to five parts. Questions will also be given in three or four part counterpoint. Musical history, and special reference to the development of the opera and oratorio, and the influence of the Italian, Netherlands, French and German schools in the time of Bach.

Text Books : Banister's Text Book of Music (up to counterpoint) ; Bridge's Primer of Counterpoint and Double Counterpoint ; Jadassohn, Simple and Double Counterpoint ; Prout's Counterpoint.

THIRD YEAR'S EXAMINATION.

FUGUE, CANON AND FORM.—A fugue in not more than four parts to be composed on a given subject ; a canon to be continued for a certain number of bars in the interval given. Explanation of musical forms to be given. Musical history from the beginning of the 18th century to the present time.

Text Books : J. Higgs' Primer of Fugue ; Pauer's Primer of Musical Form ; Bussler, Treatise on Musical Form ; Prout's Primer of Instrumentation ; Berlioz on Instrumentation ; Hawkins, Naumann, Ambros : Histories of Music. For reference—Grove's Dictionary of Music and Musicians.

ANALYSIS OF FULL SCORE.—Beethoven's Symphony No. 1 ; Mendelssohn's Elijah.

In addition, for the final examination, an exercise in the shape of a composition either sacred or secular, will be required, containing five part harmony and fugal counterpoint, with an accompaniment for at least a string band, and sufficiently long to occupy fifteen minutes in performance.

Every candidate for final examination before being allowed to enter for the examination shall present a certificate of having passed the full course of instruction, theoretical and practical, in all subjects of the above examination, in any affiliated or approved college of music.

The examination for the diploma of the affiliated College of Music will be accepted *pro tanto* in lieu of the First and Second year examinations.

The Senate may admit *ad eundem gradum* graduates of other Universities, after due enquiry as to the requirements demanded by the institutions from which candidates hold their degrees, but no candidate will be admitted to a degree without submitting original compositions to be approved by the examiners.

Musicians of established reputation may be admitted to the degree of Bachelor of Music upon their submitting for the approval of the University examiner or examiners three original compositions, consisting of any three of the following :

1. An Oratorio.
2. A Cantata.
3. A Symphony.
4. An extended piece of Chamber Music.

UNIVERSITY LIBRARY.

On the evening of February 14th, 1890, the Library of the University, together with the greater portion of the main University Building, was destroyed by fire. The Library then contained about 33,000 volumes, including many rare and valuable books and sets of scientific periodicals.

The destruction of the University was no sooner known than active measures were taken to replace what was lost. At a special meeting of Convocation a committee was formed to solicit subscriptions and donations of books from friends of the University and higher education. In England a similar movement was organized, and a committee formed, under the Marquis of Lorne as Chairman, Mr. Staveley Hill, M.P., as Honorary Treasurer, and Sir George Baden-Powell, M.P., as Honorary Secretary. In Germany, also, a committee of learned men, interested in University education, was formed for the same purpose, with Herr John Landauer, of Braunschweig, as Secretary. The appeals sent out met with a prompt and hearty response. Amongst the many donors may be mentioned Her Majesty the Queen, their Majesties the German Emperor, and the Kings of Saxony and Württemberg, His Royal Highness the Prince of Wales, the late Duke of Devonshire, the Duke of Argyle ; the Governments of Great Britain, France, Italy, Sweden, of the Dominion of Canada and its provinces, of the Australian Colonies, of the United States, and many of the States of the Union ; the Universities of Oxford, Cambridge, Edinburgh, Dublin, Strassburg, Vienna, Upsala, Harvard, Columbia, Cornell, Melbourne and Laval ; the cities of London, Birmingham, Bremen, Toronto, New York, Boston and Melbourne ; the leading publishers of Great Britain, the United States and Germany ; learned societies and very many private persons in all parts of the world. The number of books thus presented has exceeded 30,000 volumes. Among them are several of bibliographical interest. The late Duke of Devonshire presented several sets of publications of chemical societies, with the book plates of the Hon. Henry Cavendish, the great chemist. From other friends were received valuable volumes formerly in the libraries of Gibbon, the historian, of Edmund Burke, and of Guizot, the French statesman and historian.

A manuscript of great interest was also presented, being a contemporary report of the trial of the seven Bishops in the reign of James the Second, with corrections and annotations by Sir William Williams, the Solicitor-General of the day.

For two years after the fire the books thus presented, as well as those purchased, were stored in the School of Practical Science, by the kindness of the Minister of Education and the Principal of the School, and a portion of them placed on shelves in the same building so as to be accessible to Professors and Students. During this time the erection of a fire-proof Library building, separate from the restored main building, was in progress. The reading-room of this building was opened in the second week of October, 1892, and the text books and works of reference specially useful to the students were moved at once and temporarily shelved in the new reading-room. It was not, however, until January, 1893, that the fire-proof stack-room and the departmental studies were finished and ready for occupation. All the books were then unpacked and arranged on the shelves, and most of the Departmental Studies were also in occupation for the remainder of the academic year.

At the beginning of January also the connection of the electric light fixtures with the dynamo in the main building was made and the Library was opened to readers in the evening, the total number of hours available for reading in the Library being thus extended to eleven and a-half hours daily, viz., from 9 a.m. to 5 p.m., and from 7 to 10.30 p.m.

On Saturday evening the Library is not open, and students are allowed to take any book away to their own homes on Saturday afternoon, returning the same on Monday morning.

The total number of volumes in the Library up to 1st July, 1892, is 45,968. The unbound pamphlets exceed 5,000.

THE UNIVERSITY BIOLOGICAL MUSEUM.

The University Biological Museum forms the central portion of the buildings belonging to the Biological Department. It is as yet unfurnished, but it is hoped that the rooms will be ready for use early in October. To the new museum will be transferred the various collections rescued from the old museum, together with the specimens and collections recently presented to the University.

In addition to the damage done by removal and by water to the mounted specimens (mammals, birds and skeletons), of the former museum, the most serious losses were in the direction of the collection contained in the gallery cases.

It is hoped that in the near future donations from friends of the institution will assist in replacing the losses. Already considerable contributions have been received, and it is intended to issue shortly a rough list of the collections with the view of indicating the gaps which exist therein.

Fortunately, the extensive and valuable series of preparations and models used for illustrating the lectures in animal and vegetable morphology and embryology had been removed to the Biological Department before the fire, so that the teaching of the department is not crippled in this respect.

NERVOUS EXHAUSTION.

HORSFORD'S ACID PHOSPHATE.

Recommended as a restorative in all cases where the nervous system has been reduced below the normal standard, by overwork, as found in brain-workers, professional men, teachers, students, etc., in debility from seminal losses, dyspepsia of nervous origin, insomnia where the nervous system suffers.

It is readily assimilated and promotes digestion.

Dr. Edwin F. Vose, Portland, Me., says: "I have prescribed it for many of the various forms of nervous debility, and it has never failed to do good."

Send for descriptive circular. Physicians who wish to test it will be furnished, upon application, with a sample, by mail, or a full size bottle without expense, except express charges.

Prepared under the direction of Prof. E. N. Horsford, by the
